# What's NEW?

# What's DIFFERENT?

Just as we do every year, we'd like to kick off the new catalogue by highlighting the novelties.

On the first few pages, we talk about our patent for dimmable BETA LED<sup>HQ</sup> instrument heads, but also address topics which are very important to us, such as quality, in-house production inside Germany, the differences between conventional LED and LED<sup>HQ</sup>, and the environment.

And thus provide you with good arguments for HEINE primary diagnostic instruments.

# NEW

**The EasyClean LED Laryngoscope Handle is now joined by a short and a slim counterpart**, completing the range of EasyClean handles: SHORT and SLIM now complement the Standard size and all three are still the only waterproof laryngoscope handles around the world\* (page 086).

**The new iC 2 Charger for the iC 2 Funduscope is the world's first inductive charging station to receive approval for a medical product.** You can now set it down and charge in one step. Another cable less (page 067).

**The iPhone 8\*\* now has a case of its own, too**, and can be used with the iC 2 Funduscope, iC 1 Dermatoscope and NC2 Dermatoscope instruments without any issues (pages 067, 094, 095).

**mPack mini: the new belt clip makes it work even better.** The small rechargeable battery is now safely secured directly on your belt or in your coat pocket (page 150).

**A film says more than a thousand words.** There are two new films for the OMEGA 500: one version showcases the extensive range of accessories, whilst the other focuses on the functions and many different applications of the OMEGA 500 (page 069). We've also shot a film for the iC 2 Funduscope which demonstrates everything, from commissioning to taking advantage of the benefits provided by this mobile, digital funduscope (page 067). There's a film about the aspherical optical system (AOS) in English, which is available exclusively for HEINE's direct ophthalmoscopes (page 050/051). The new film about our LED<sup>HQ</sup> is also in English and can be found as a QR code on the LED<sup>HQ</sup> double page.

**EN200 Diagnostic Centre: even tidier and even lower energy consumption.**

The updated Diagnostic Centre now offers new sets and requires, on average, nearly 60 % less power than its predecessor. The cuff of the GAMMA XXL LF-WB set is now conveniently stored in the basket below (page 153).

**Dermatoscopes now preassembled.** Well thought-out: there are now three kits featuring preassembled dermatoscopes with just one item number, offered without a case or accessories. And finally, we have made some slight changes to the layout of the dermatoscopes section (pages 091 ff.).

\* Last updated 10/2018.

# Our PROMISE: QUALITY.

Quality has been the benchmark for our activities since the first day. HEINE Optotechnik has four basic principles which the company still observes to this day. And they all revolve around quality:

First: Do something important and thus make a meaningful contribution to society. Second: Always build the best product. Third: Produce the entire product yourself, if it is critical to manufacturing the best quality. And fourth: Remain independent, so that you can always make the right long-term decisions.

Because we continue to embrace these principles to this day, quality isn't a meaningless term at HEINE, but rather is defined in three dimensions: performance, function and durability.

## PERFORMANCE

Diagnostic performance takes top priority with our instruments – they should support the earliest and most accurate diagnosis possible. That's because many medical examinations focus first on early detection of diseases and second on implementing the right therapy with the most precise diagnosis possible.

## FUNCTION

Our instruments can be adjusted to offer optimal results in every examination situation. For instance, the doctor can adjust our OMEGA 500 to always achieve the best image for every pupil size, whether large or small.

## DURABILITY

As a premium supplier, we ensure that our quality concept is also defined by product durability – which is not necessarily a given in this day and age. If a HEINE instrument is used correctly, it will continue to work just as well as on the first day for many years to come. And that's with the same level of performance and reliability as the day it came out of the box. There's good reason why HEINE offers a guarantee of five years on the materials and craftsmanship of all products.\*

Each diagnostic instrument is developed with this three-part quality promise in mind from the very start. And every HEINE instrument is put through its paces, with a key focus on these three quality dimensions.

All HEINE instruments are also technically advanced and boast extreme precision and an ergonomic design.

In reality, we not only strive for quality, but also demand the very best quality possible of ourselves. And that's what makes us and our diagnostic instruments so unique.

**HEINE** **QUALITY**  
MADE IN GERMANY

\*The only exception is the HEINE Cube, which comes with a two-year guarantee.

**If you want  
something to be  
done truly  
PERFECTLY,  
then you  
need to do it  
YOURSELF.**

The HEINE maxim from the very start. For example, all products are developed and elaborated in our own research and development department. That's because we firmly believe that it's always better to define quality criteria yourself than to have them defined by suppliers.

We manufacture many components ourselves, including housings, handles, branding, surface finishes, cables and lighting – and, of course, our precision lenses. That's the only way to ensure that the results are as perfect as we want them to be. We manufacture around 85 per cent of all instrument parts at our own production facilities – that's an extremely high level in German industry.

For example, we coat our laryngoscope blades with our own electroplating – using a six-stage process. The result is an exceptionally smooth, pore-free chrome finish which is extremely durable and easy to clean. In addition to the highly resistant illumination, this forms the basis for the most comprehensive guarantee available on the market.

But even our lenses we make ourselves: as a result, they offer a level of quality which has yet to find its peer around the world. We produce lenses using state-of-the-art CNC machines with a precision of  $\pm 0.0001$  mm, which is 20 times less than the diameter of a human hair.

But it's only in this way that we can achieve the level of durability that we expect, alongside precision and perfection.

# There's LED. And there's LED<sup>HQ</sup>

Regardless of the type of medical examination, nothing is more important than unambiguous diagnosis – as early as possible and with maximum precision. And that requires the best illumination possible. LED is establishing itself in more and more applications, but not all LEDs are equal.

HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management a colour rendering index as high as possible.

That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.

We have three corresponding criteria.

HEINE LED<sup>HQ</sup>  
film

## 1. ILLUMINATION

Every HEINE instrument with LED<sup>HQ</sup> is developed in such a way that it delivers optimal illumination for the application in question. Depending on the application, the instrument is either preset or the brightness can be steplessly adjusted.

At the same time, the light of the LED<sup>HQ</sup> is homogenous and evenly distributed across the entire field of view.

The result is even illumination up to the outer areas, without disturbing reflections, shadows, bright or dark spots.

Conventional LED

HEINE LED<sup>HQ</sup>

## 2. EXCELLENT IMAGE

The colour rendering index (CRI) shows how accurately colours are portrayed compared with the benchmark of daylight. The closer this value is to the maximum of 100, the more accurate the illumination system, which means that colours are shown in their natural state. Red is red, blue is blue. HEINE LED<sup>HQ</sup> instruments achieve exceptionally high CRI values in order to ensure that the user sees the colours as they are during each examination – for absolutely reliable and precise diagnosis.

Conventional LED

HEINE LED<sup>HQ</sup>

## 3. OPERATING LIFE

Thanks to special thermal management based on the use of special materials such as ceramics, heat-conducting foils and aluminium heat sinks, the LED<sup>HQ</sup> always operates in the optimal temperature range, guaranteeing consistently good performance and an almost unlimited operating life.

As a result, our LED<sup>HQ</sup> instruments are virtually maintenance-free, as there's no longer a need to replace the light source. The high efficiency of the LED<sup>HQ</sup> and its low energy consumption also extend operating time and battery life and thus contribute to the life-cycle assessment of our instruments.

**Another**

**PATENTLY**

**ingenious idea:**

**LED<sup>HQ</sup> heads**

**offer stepless**

**dimming between**

**3 and 100%**

You may call it 'obsessed with details'. We call it 'in love with details'. That's why we've put lots of IQ into the dimmability of the LED<sup>HQ</sup> instrument heads once more. The result is that our LED<sup>HQ</sup> reduces fatigue, as the brightness of all dimmable instrument heads can be continuously adjusted between 3 and 100%, without even a hint of flickering. Exclusively at HEINE.

The patent office assessed the continuous brightness adjustment and provided us with the patent featuring number US 9839086 in early 2018. But they're a little 'in love with details' there, too.

**GREEN.**

The role of environmental footprints is becoming more and more important in medical technology, too, whether it's in production, throughout the operating life of a product, or disposal. Needless to say, this topic is also important to us – and has been for many years. Allow us to provide a few examples that reveal how we think and act.

**Is there an eco-friendlier product than a long-lasting product?** And that applies to all our products, ranging from laryngoscope systems, otoscopes, loupes and lights to sphygmomanometers, ophthalmoscopes, stethoscopes and dermatoscopes.

And it's no different for the repair service, which kicks in quickly and reliably on those rare occasions that part of a HEINE instrument breaks. Spare parts are available for at least ten years, though we've also been known to repair instruments that have been in use for three, four or even five decades.

In addition to replacement costs, a long operating life also reduces any additional material extraction, energy consumption and disposal, which in turn benefits the environment.

**For us, 'Made in Germany' also means 'Buy in Germany'.**

We purchase materials regionally if at all possible. 96 % of what we purchase comes from Germany, including 58 % from Bavaria and Baden-Württemberg – quite simply to minimise the energy consumption resulting from transport. In other words: Think globally, act locally.

**We're less eager to save on the performance of our instruments, preferring instead to save on their energy consumption.** We've updated the EN200 Diagnostic Centre, so that it now offers more than its predecessor, but typically consumes nearly 60 % less energy.

We may be orange through and through, but we tend to be more and more green in our thinking and acting.

**BETTER**  
illumination.  
**HIGHER**  
colour fidelity.  
**MORE**  
magnification.  
**NO**  
**DOUBTS.**

High-quality Fiber Optics (F.O.) provide a homogeneous, reflex-free illumination.

## HEINE BETA® 400 LED F.O. Otoscope

### 4.2x magnification with LED<sup>HQ</sup> illumination

The otoscope has been designed with an all metal housing and scratch resistant glass lenses which guarantee a lifetime of maintenance-free use. LED with virtually unlimited hours of working life. No need to ever replace bulbs. Maintenance-free for a lifetime.

- EXCLUSIVELY AT HEINE**
- 4,2x Magnification
  - LED in HQ – Stepless dimmable
  - All-metal housing

- **Exclusive 4.2x magnification.** More detail of anatomical structures and easy recognition of foreign bodies.
- **Exceptional depth of field.** Provides sharp spatial images in a convenient working range.
- **Large field of view.** Gives the necessary overview and perfect orientation during examinations.
- **Multi-coated precision optics.** Offer high resolution and distortion free images.
- **Fiber Optic Illumination.** Ensures homogeneous, very bright illumination and an unobstructed view of the ear canal and tympanum.
- HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- **Special optical interface to precisely integrate the LED illumination with the optical system** to ensure bright, homogeneous light during examinations.
- **Patented, unique, stepless dimming** from 3% to 100% with practical one-finger operation.
- **One hand operation.** The unique patented design allows the permanently attached optical system to be flipped open and out of the way, enabling instrumentation and ease of cleaning.
- **Integrated insufflation port** offers tympanic mobility testing without air leakage.
- **Full functionality of the BETA 400 LED is guaranteed with BETA Rechargeable Handles and the EN 100/EN 200 Wall Transformers.**

HEINE mini3000® LED F.O. Otoscope

With LED illumination in HEINE Quality – LED<sup>HQ</sup>

- ⚡ Maintenance-free pocket instrument
- ⚡ Bright LED illumination
- ⚡ Typ. 10 hours operating time

Modern otoscope with maintenance-free LED illumination. Twice as bright as a conventional Xenon Halogen instrument.

- ⚡ **Maintenance-free**, no need to ever exchange the LED.
- ⚡ LED Thermal management for a **consistent light output throughout the whole working life**.
- ⚡ HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity and thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- ⚡ **Twice as bright as** Xenon Halogen instruments.
- ⚡ **Exclusive Battery Performance Indicator:** When the instrument is switched on, the maximum light intensity is shown, then the light intensity is regulated down to the level that corresponds to the current charge status of the battery so you know when your batteries need changing.
- ⚡ **Fade-Out Feature:** brightness reduces slowly even with low residual capacity, for even more efficient use of dry or rechargeable batteries.
- ⚡ **Operating time typ. 10 hours.** The batteries need to be changed less often and the rechargeable batteries last longer.
- ⚡ **For further technical specifications, please see mini3000 F.O. Otoscope with XHL illumination on page 027.**

## HEINE® G 100 LED Slit Illumination Head

### With LED illumination in HEINE Quality – LED<sup>HQ</sup>

**LED<sup>HQ</sup>**  
 LED NOW IN HEINE QUALITY.

- EXCLUSIVELY AT HEINE**
- 1.6x Magnification
  - LED in HQ – Stepless dimmable
  - All-metal housing

Instrument head with solid metal construction and scratch-resistant swivel lens guarantee a lifetime of maintenance-free use. LED with virtually unlimited hours of working life. No need to ever replace bulbs.

- **Slit Illumination Head.** Allows optimal instrumentation with magnification and illumination. Clears the way for access during examinations.
- **Multi-coated, scratch-resistant swivel lens with 1.6x magnification** provides a high-resolution image.
- **Fiber Optic Illumination.** Ensures homogeneous, very bright illumination and an unobstructed view of the ear canal and tympanum.
- HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- **Special optical interface to precisely integrate the LED illumination with the optical system** to ensure bright homogeneous light during examinations.
- **Patented, unique, stepless dimming** from 3% to 100% with practical one-finger operation.
- **Easy cleaning.** Round edges allow easy disinfection, also with standard disinfectants.
- **Double bayonet lock for specula.** Specula mounted firmly by double lock.
- **Full functionality of the G 100 LED Slit Illumination Head is guaranteed with BETA Rechargeable Handles and the EN100/EN200 Wall Transformers.**

## HEINE Operating Otoscope

### The greatest flexibility and most options for instrumentation

An all-round otoscope for instrumentation under magnification. Both the lens and speculum can be swivelled. For use with reusable specula and UniSpec disposable specula. With tip-adaptor (B-000.11.306) it is also possible to use AllSpec disposable tips.

- ∴ **Open construction.** Ideal for instrumentation.
- ∴ **XHL Xenon Halogen Technology.** Extremely bright, white light.
- ∴ **Swivelling lens and speculum.** Clears the way for access and examination under magnification and illumination.
- ∴ **2.5x lens in protective frame.** Prevents scratching.
- ∴ **The relative positions of light bulb and speculum can be fixed.** Helps with instrumentation, easily returned to normal position.

HEINE BETA® 200 LED VET F.O. Otoscope

**Veterinary Otoscope with LED<sup>HQ</sup> illumination**

The otoscope has been designed with an all metal housing and scratch resistant glass lenses which guarantee a lifetime of maintenance-free use. LED with virtually unlimited hours of working life. No need to ever replace bulbs. Maintenance-free for a lifetime.

- ∴ **Large, scratch-resistant glass viewing window with 2.5x magnification.** Specially developed lens for veterinary medicine. Focal length is designed specifically for use with longer specula.
- ∴ **Fiber Optic Illumination.** Ensures homogeneous, very bright illumination and an unobstructed view of the ear canal and tympanum.
- ∴ HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- ∴ **Special optical interface to precisely integrate the LED illumination with the optical system** to ensure bright homogeneous light during examinations.
- ∴ **Patented, unique, stepless dimming** from 3% to 100% with practical one-finger operation.
- ∴ **Swivelling viewing window built into instrument.** Useful for instrumentation, cannot be mislaid.
- ∴ **Insufflation port.** Reliable test of tympanic mobility.
- ∴ **For use with reusable SANALON S VET Specula** (G-000.21.213).
- ∴ **Full functionality of the BETA200 LED VET is guaranteed with BETA Rechargeable Handles and the EN100/EN200 Wall Transformers.**

- EXCLUSIVELY AT HEINE**
- 2.5x Magnification
  - LED in HQ – Stepless dimmable
  - All-metal housing

## HEINE BETA® 100 VET Otoscope

### Veterinary Otoscope with direct illumination

Direct Xenon Halogen illumination

Otoscope with all-metal construction and direct Xenon Halogen illumination. Suitable for use with short, closed specula. With the use of the VET adaptor (G-000.21.214), it is possible to fit reusable VET specula for ear examinations.

- ⌘ **All-metal housing.** Exceptionally-tough and long-lasting.
- ⌘ **XHL Xenon Halogen Technology.** Extremely bright, white light.
- ⌘ **Large, scratch-resistant glass viewing window with 2.5x magnification.** Unobstructed view, distortion-free image.
- ⌘ **Swivelling viewing window built into instrument.** Useful for instrumentation, cannot be mislaid.
- ⌘ **Insufflation port.** Reliable test of tympanic mobility.
- ⌘ **Can be used with short, closed specula G-000.21.316 (no adaptor required).**
- ⌘ **Versatile, useful for very small animals.**
- ⌘ **Instrument head matt-black inside.** Eliminates reflexes.

## HEINE Reusable VET specula

9 mm dia.

6 mm dia.

4 mm dia.

A VET adaptor [01] is required for use of VET reusable tips on the BETA 100 VET.

- ⌘ **Made of high-density SANALON S with a smooth external surface.** Dust and germs are easily removed. Disinfection and autoclaving at up to 134 °C is possible.
- ⌘ **Ergonomic shape.** Atraumatic.
- ⌘ **Convenient fixation system.** Positive fit to otoscope head.

[01]

## Long, closed metal specula

- ∴ **Metal construction, chrome-plated.** Easy to clean, disinfect and sterilize.
- ∴ **Double bayonet lock for specula.** Firm mounting of specula to head.

### Closed specula for G100/G100 LED Slit Illumination Head

57 mm long / 4 mm dia.	G-000.21.330
65 mm long / 6 mm dia.	G-000.21.331
90 mm long / 7 mm dia.	G-000.21.332
170 mm long / 10 mm dia.	G-000.21.350

## Slit metal specula, open

- ∴ **High-quality chrome-plated metal construction.** Easy to clean, disinfect and sterilize.
- ∴ **Matt internal surfaces.** Reduced reflexes.
- ∴ **60° opening with rounded edges.** Ideal for instrumentation, atraumatic insertion.
- ∴ **Double bayonet fitting.** Positive fit.

### Slit metal specula for G100/G100 LED Slit Illumination Head

65 mm long / 6 mm dia.	G-000.21.341
90 mm long / 7 mm dia.	G-000.21.342

## Spreadable speculum for Slit Illumination Head

This versatile instrument is widely used as a universal speculum for small animals.

- ∴ **Distal jaw opens up to 28 mm with 4 click-stops.** Useful for examination and therapy.
- ∴ **High-quality, chrome-plated metal construction.** Easy to clean, disinfect and sterilize.
- ∴ **Matt internal surfaces.** Avoids reflexes.
- ∴ **Oval branches with rounded edges.** Ideal for instrumentation, atraumatic.
- ∴ **2 bayonet locks.** Firm mounting of spreadable Speculum to head.

### Spreadable speculum for G100/G100 LED Slit Illumination Head

Spreadable speculum for Slit Illumination Head (95 mm long)	G-000.21.360
---	--------------

Short, closed specula

5.5mm dia. 4.5mm dia. 3.5mm dia.

Ear speculum 5.5mm dia.	<b>B-000.11.219</b>
Nose speculum 10mm dia.	<b>B-000.11.220</b>

## HEINE UniSpec® Disposable Specula

2.5 mm dia.

4 mm dia.

[01]

The adaptor illustrated [01] is necessary when using UniSpec specula with the G 100/G 100 LED Slit Illumination Head.

- ∴ **No cleaning necessary.** Saves time.
- ∴ **Hygienic and safe.** Eliminates cross-infection.
- ∴ **Packed in units of 1000.** Assures a competitive price.
- ∴ **Original HEINE design and manufacture.** Guaranteed good fit to the instrument head.

### UniSpec disposable specula (grey)

for BETA 100 VET, Operating Otoscope and G 100/G 100 LED Slit Illumination Head

Pack of 1000 UniSpec disposable specula 2.5 mm dia.	<b>B-000.11.242</b>

\* Red-free filter for all apertures

“Aspherical Optical System” (AOS) exclusively from HEINE

eliminates corneal and iris reflexes to provide large, crisp and glare-free fundus images.

- [01] Flat, elliptical illumination beam produced by HEINE’s Aspherical Optical System.
- [02] Observation path.
- [03] Redirected iris and corneal reflexes.
- [04] The elliptical light beam enters through the lower half of the cornea. The illumination beam has been separated from the observation beam (Gullstrand-Principle). All reflexes are diverted away from the observation beam due to the curvature of the reflective cornea. Due to the flat, compressed form of the light beam, a maximum amount of light enters through the pupil.
- [05] Once past the anterior chamber, the light beam opens up dramatically to illuminate a large area of the retina.

## HEINE BETA® 200 S LED Ophthalmoscope

### Superior aspherical optics with LED<sup>HQ</sup> illumination

**LED<sup>HQ</sup>**  
LED NOW IN HEINE QUALITY.

- EXCLUSIVELY AT HEINE**
- Aspherical optical system
  - LED in HQ – Stepless dimmable
  - Aluminium frame system

BETA 200 S with 7 apertures

Cobalt blue filter, fixation star with polar coordinates, large spot, small spot, pinhole, slit, hemisphere

With red-free filter

HEINE AOS film

Exclusive dustproof design protects the precision optical components and ensures maintenance-free operation. The BETA 200/200 S Ophthalmoscopes are the only instruments with an aluminium frame system. Optical components are flush-mounted on a cast aluminum frame, eliminating misalignment and making the instrument shock-resistant. The BETA 200 S LED has virtually unlimited hours of working life. No need to ever replace bulbs. Maintenance-free for a lifetime.

- **Exclusive aspherical optical system (AOS)** for more information see the bottom of page 050.
- HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management to a colour rendering index as high as possible. **That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- **Special optical interface to precisely integrate the LED illumination with the optical system** to ensure bright, homogeneous light during examinations.
- **The BETA 200 S Ophthalmoscope** accommodates higher refractive errors with a **28 single lenses Rekoss Disc** and features a 74 single step design on a non-continuous wheel avoiding extreme diopter jumps.
  - + in 1 D steps: +1 through +38 D
  - in 1 D steps: -1 through -36 D
- **Patented, unique, stepless dimming** from 3% to 100% with practical one-finger operation.
- **No stray light due to the recessed, multi-coated viewing window** – eliminates distractions.
- **Precise one-hand control of the instrument.** Ergonomic design offers flexibility while examining.
- **Suitable for large as well as small or undilated pupils.**
- **Ergonomic design** fits the orbita comfortably, and blocks out ambient light.
- **Full functionality of the BETA 200 S LED is guaranteed with BETA Rechargeable Handels and the EN 100/EN 200 Wall Transformers.**

<b>NEW!</b> 2x BETA4 NT rechargeable handle with NT4 table charger	<b>A-132.23.422</b>	<b>A-132.24.422</b>

## HEINE K180® Ophthalmoscope

### Standard direct ophthalmoscope

- ∴ Reduces corneal reflex
- ∴ Dust resistant

A full-featured instrument at an economical price.

- ∴ **Precision spherical HEINE optics.** Corneal and iris reflexes are eliminated.
- ∴ **XHL Xenon Halogen Technology.** Bright, white light. Clear retinal image.
- ∴ **Range of lenses: 27 lenses from -35D to +40D.** Brilliant image even at high corrections.

+ in 1 D steps:	1 – 10	15	20	40	D
- in 1 D steps:	1 – 10	15	20	25	35 D

- ∴ **Ergonomical shape.** The instrument fits the orbita comfortably.
- ∴ **Soft orbital rest.** Steadies the instrument and protects your glasses.
- ∴ **Choice of 5 apertures.** For both large and small pupils. Choice of fixation star or cobalt blue filter for corneal examination.
- ∴ **Dust resistant housing.** Maintenance-free.
- ∴ **High-impact polycarbonate housing for durability.**

K180 Ophthalmoscope	2.5V XHL	3.5V XHL
with aperture wheel 1, without handle	C-001.30.206	C-002.30.206
with aperture wheel 2, with cobalt blue filter, without handle	C-001.30.207	C-002.30.207
XHL Xenon Halogen spare bulb	X-001.88.084	X-002.88.086

#### K180 apertures

**Aperture wheel 1:**  
Slit, red-free filter, fixation star with polar coordinates, large spot, small spot

**Aperture wheel 2:**  
Slit, red-free filter, cobalt blue filter, large spot, small spot

## HEINE K180® Diagnostic Sets

Set complete with: **K180 Ophthalmoscope**, in standard version with aperture wheel 1 soft pouch

## HEINE mini3000® LED Ophthalmoscope

### With LED illumination in HEINE Quality – LED<sup>HQ</sup>

**LED<sup>HQ</sup>**  
LED NOW IN HEINE QUALITY.

- ∴ Maintenance-free pocket instrument
- ∴ Optimal colour rendering
- ∴ Typ. 10 hours operation time

Modern ophthalmoscope with maintenance-free LED illumination. Its brightness and colour rendering are comparable with a HEINE XHL Xenon Halogen Ophthalmoscope.

- ∴ **Maintenance-free**, no need to ever replace the LED.
- ∴ LED Thermal management for a **consistent light output throughout the whole working life**.
- ∴ HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity and thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- ∴ **Exclusive Battery Performance Indicator:** When the instrument is switched on, the maximum light intensity is shown, then the light intensity is regulated down to the level that corresponds to the current charge status of the battery so you know when your batteries need changing.
- ∴ **Fade-Out Feature:** brightness reduces slowly even with low residual capacity, for even more efficient use of dry or rechargeable batteries.
- ∴ **Operation time typ. 10 hours.** The batteries need to be changed less often and the rechargeable batteries last longer.
- ∴ **For further technical specifications, please see mini3000 Ophthalmoscope with XHL illumination on page 059.**

mini3000 LED Ophthalmoscope	2.5V LED
with mini3000 battery handle, with batteries	<b>D-008.71.120</b>
with mini3000 rechargeable handle (please order mini NT table charger separately)	<b>D-008.71.200</b>
without handle	<b>D-008.71.105</b>

#### mini3000 apertures

Fixation star, large spot, small spot, hemispot, red-free filter

HEINE mini3000 pocket instruments – a complete range of quality diagnostic instruments for your pocket. Available in black or blue. Please specify the colour you prefer when ordering. If not otherwise specified, we will supply black instruments.

To upgrade to a rechargeable instrument with mini NT table charger, please see page 145.

## HEINE mini3000® Ophthalmoscope

### Compact Pocket Ophthalmoscope with XHL illumination

∴ Modern pocket instrument

∴ 5 different apertures

∴ Dust resistant

Modern pocket ophthalmoscope with XHL Xenon Halogen bulb technology. Concentrated bright light for perfect illumination, a brilliant image and accurate colour rendering. Fixation star aperture with grey filter for reducing the light intensity. Excellent optics and best colour rendering in minimum dimensions, ideal for rounds and house calls. Can be used with the mini3000 handle system. Available in black and blue.

- ∴ **HEINE optics produce crisp, clear images of the whole area under examination** and minimise reflections.
  - ∴ **5 different apertures.** A full-function instrument incl. fixation star.
  - ∴ Grey filter for light-sensitive patients.
  - ∴ **Range of lenses: 18 lenses from -20D to +20D.**
- |   |   |   |   |   |   |   |    |    |     |
|---|---|---|---|---|---|---|----|----|-----|
| + | 1 | 2 | 3 | 4 | 6 | 8 | 10 | 15 | 20D |
| - | 1 | 2 | 3 | 4 | 6 | 8 | 10 | 15 | 20D |
- ∴ **Easy workflow,** because ophthalmoscopy is possible without dilation of the pupils.
  - ∴ **Attachment clip with integrated on/off switch.** Switches off automatically when returned to the pocket.
  - ∴ **Replaceable batteries.** Size AA, or optional rechargeable battery with mini NT table charger.\*
  - ∴ **2-piece handle and head.** Easy to maintain, flexible.
  - ∴ **Award-winning design.** Maximum quality with minimum dimensions.

<b>mini3000 Ophthalmoscope</b>	<b>2.5V XHL</b>
with mini3000 battery handle, with batteries	<b>D-001.71.120</b>
with mini3000 rechargeable handle (please order mini NT table charger separately)	<b>D-001.71.200</b>

HEINE mini3000 pocket instruments – a complete range of quality diagnostic instruments for your pocket. Available in black or blue. Please specify the colour you prefer when ordering. If not otherwise specified, we will supply black instruments.

**Hand-held retinoscopes for objective refraction.**

The BETA200 Retinoscope is used for the exact measurement of the refractive error. Both myopia and hyperopia as well as astigmatism can be measured.

Two versions are available:

The Spot Retinoscope with a round light spot (available only as XHL variant) and the more widely-used Streak Retinoscope with a streak image which simplifies the examination.

**\*HEINE ParaStop**

The BETA200 Retinoscope with ParaStop features the latest multi-coated optics for an exceptionally bright fundus reflex and easier detection of the neutralisation point. ParaStop was developed by HEINE for the easy, precise selection of a parallel illumination beam. ParaStop simplifies and speeds up the precise detection of cylinder axis. ParaStop also simplifies the verification of the cylinder correction after refraction.

HEINE BETA® 200 LED Retinoscope with HEINE ParaStop®

With LED illumination in HEINE Quality – LED<sup>HQ</sup>

Homogenous LED illumination for precise streak image quality offers an easy and quick observation of the fundus reflex.

- ∴ **ParaStop.** Precise, easy selection of a parallel beam.\*
- ∴ **Brilliant, precise streak image** with a line width of typically 1.1 mm (ISO 12865 Standard < 1.5 mm) and a line length of 35 mm for a very bright, readily visible fundus reflex.
- ∴ HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management to a colour rendering index as high as possible.
- That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- ∴ **Patented, unique, stepless dimming** from 3% to 100% with practical one-finger operation.
- ∴ **Ergonomic shape.** Protects the examiner's orbita from stray light.
- ∴ **Metal controls.** Long-lasting.
- ∴ **Single control for vergence and rotation.** Comfortable operation.
- ∴ **Maintenance-free.** Dustproof. LED with virtually unlimited hours of working life.
- ∴ **Integrated polarisation filter.** Eliminates stray light and internal reflexes for a brighter fundus reflex.
- ∴ **Detachable brow rest.** Increased comfort and control during examination.
- ∴ **Holder for fixation cards (optional).** For dynamic retinoscopy.
- ∴ **Full functionality of the BETA200 LED is guaranteed with BETA Rechargeable Handles and the EN 100/EN 200 Wall Transformers.**

BETA200 LED Streak Retinoscope	LED
without handle	C-008.15.353
Fixation cards with holder for dynamic retinoscopy	C-000.15.360

- EXCLUSIVELY AT HEINE**
- ParaStop
  - Highly visible, bright fundus reflex
  - Metal controls

HEINE BETA® 200 Retinoscope with HEINE ParaStop®

With XHL illumination

Technical specifications as for BETA200 LED Retinoscope, except:

- : XHL Xenon Halogen Technology.
- : **Streak or Spot Retinoscope.** Simply by changing the bulb.
- : **Orange filter (optional).** Reduces patient dazzle without affecting the fundus reflex.

BETA200 Streak Retinoscope	2.5V XHL	3.5V XHL
with XHL Xenon Halogen bulb, without handle	C-001.15.353	C-002.15.353

## HEINE® HSL 150 Hand-held Slit Lamp

### For the examination of the anterior segment

- ∴ Continuous slit adjustment
- ∴ Blue filter
- ∴ Ideal for domiciliary visits

Compact and lightweight, the portable HSL 150 is ideal for situations where a full-size slit lamp is not available or convenient. For the examination of the anterior segment in Human- and Veterinary medicine.

- ∴ **Slit size adjustable** from 0.2mm x 10mm to 4 mm x 14mm.
- ∴ **6x magnification.**
- ∴ **Blue interference filter (FITC)**, can be selected for corneal examination.
- ∴ **Multi-coated optics for maximum light transmission.**
- ∴ **2.5V or 3.5V XHL Xenon Halogen Technology** for bright, white light comparable with the brightness of a classic slit lamp.
- ∴ **The HSL 150 instrument head weighs just 70g**, the lightest slit lamp of its kind.

HSL 150 for BETA or BETA SLIM handles	2.5V XHL	3.5V XHL
HSL 150, head only	<b>C-001.14.602</b>	<b>C-002.14.602</b>
XHL Xenon Halogen spare bulb	<b>X-001.88.098</b>	<b>X-002.88.099</b>
Replacement blue filter attachment for HSL 150	<b>C-000.14.605</b>	

## HEINE® HSL 10x Loupe Attachment

### Loupe attachment with 10x magnification

For HSL 150. With precision magnification optics for crisp, clear images.

- ∴ **10x magnification** when combined with HSL 150 Loupe.
- ∴ **Increased working distance** from examiner to patient.
- ∴ **Large field of view.**
- ∴ **With an additional detachable eyepiece** to steady the instrument on the brow and avoid stray light. Can be replaced with a soft cap, suitable for spectacle-wearers.

HSL 10x Loupe Attachment	<b>C-000.14.606</b>
--------------------------	---------------------

## HEINE® HSL 150 Hand-held Slit Lamp Sets

[01]

Set complete with: **HSL 150 Hand-held Slit Lamp**  
BETA SLIM handle (compact)

Hand-held Slit Lamp Sets	2.5V XHL	3.5V XHL
BETA SLIM battery handle, in soft pouch, without spare bulb [01]	<b>C-252.10.105</b>	
BETA 4 SLIM NT rechargeable handle and NT4 table charger*, spare bulb, in hard case		<b>C-266.20.471</b>

\*NT4 table charger incl. reducer insert

## HEINE® LAMBDA 100 Retinometer

### For assessing potential visual acuity

The LAMBDA 100 Retinometer is the first compact instrument for assessing potential visual acuity of patients with cataracts and other opacities.  
LAMBDA 100 – clinically tested with excellent results.\*

- ∴ **Simple, easy-to-use controls.** Reliable diagnosis, easy to operate.
- ∴ **Compact, lightweight (100 g).** Can be used anywhere – even bedside.
- ∴ **XHL Xenon Halogen Technology and brightness control.** Avoids patients discomfort from dazzle.

#### Three simple steps for assessing potential visual acuity with LAMBDA 100

1. Switch on instrument, select acuity, adjust pattern of lines, reduce ambient lighting.
2. Rest Retinometer against the patient's forehead. Scan the pupil with the red light spot to find a "window" through which the patient can recognise the pattern of lines.
3. Select progressively finer lines with different angles until the patient can no longer recognise the angle. The value of the last recognisable angle indicates potential acuity.

#### EXCLUSIVELY AT HEINE

- Light and compact
- USB charging facility
- Clinically tested

## HEINE® iC2 Funduscope

### Mobile, digital ophthalmoscopy

**LED<sup>HQ</sup>**  
LED NOW IN HEINE QUALITY.

HEINE iC2  
Application film

Free  
HEINE iC2 App

#### EXCLUSIVELY AT HEINE

- Broad field of view
- High resolution images
- Mobile documentation

- **Always with you wherever you are.** With a weight of just 300g, practical dimensions and cable-free operation, it's ideal for examining children as well as bedridden, injured and disabled patients.
- **Comfortable for both the doctor and patient.** In addition to the conveniently longer working distance for both sides, full adjustment of LED brightness is particularly pleasant for the patient. Needless to say, it corresponds to the highest international standard for photobiological safety.
- **Continuous dioptre compensation.** Adjustable from +15 to -15 dioptres, complemented by autofocus with +/-3 dioptres.
- **High-quality fundus images:** Optical precision lens system with 4 aspherical high-performance lenses. Convenient documentation of completed examinations. Excellent imaging quality at up to 12 MP\*\*.
- **Field of view up to 34°.** The angle of view is therefore approximately four times as big as that of conventional direct ophthalmoscopes with 9°.
- **Straightforward scanning of the periphery,** simply by tilting the iC2 back and forth.
- HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity and thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE quality – or LED<sup>HQ</sup>.**
- **NEW! Set it down and charge in one step.** The new iC2 Charger is the world's first inductive charging station to receive approval for a medical product. Say goodbye to charging cables!
- **A film says more than a thousand words.** A brief film shows you just how practical, simple and fast fundus photography can be. Scan this QR code or go to [www.heine.com/video/heine\\_ic2\\_en\\_gb/](http://www.heine.com/video/heine_ic2_en_gb/).
- **See for yourself what the iC2 app is capable of:** intuitive localisation of images, continuous magnification, storage of additional patient data, documentation of the current situation and, most notably, provision of images via email.

**Synchronized Convergence and Parallax Adjustment System**

The advanced One-Step Small and Variable Pupil Control maximizes stereopsis in dilated pupils and allows for the instant adjustment of the optical system to ensure fully illuminated, stereoscopic views through pupils as small as 1 mm in diameter.

- **Dilated Pupil.** In the case of a dilated pupil, the HEINE Synchronized Convergence and Parallax Adjustment System adjusts the left and right observation paths as far apart as possible (large angle of convergence) providing for maximum stereopsis (depth perception). The illumination beam is automatically positioned as high as possible relative to the observation plane (creating a large angle of parallax) in order to maximise illumination and minimise unwanted reflections [01].
- **Undilated Pupils and viewing in the Periphery.** In cases of pupils that can not, or should not be dilated, a binocular view with full illumination is not possible without adjustments of the optical system [02]. By adjusting the Small and Variable Pupil Control Lever located on the bottom of the OMEGA Series instruments, the angle of convergence between left and right observation paths is reduced and the angle of parallax (light path) is automatically reduced in one, simple step. The observer can now enjoy a fully illuminated, binocular view with excellent stereopsis [03] even through a pupil as small as 1 mm in diameter, or in cases where the pupil appears as an ellipse as a result of viewing the periphery.

## HEINE OMEGA® 500 Binocular Indirect Ophthalmoscope

### Quality with LED<sup>HQ</sup> or XHL illumination

With its LED<sup>HQ</sup> or XHL technology and perfect colour rendering, the OMEGA500 has set the standard for reliability and performance.

- ∴ **Unique “Synchronized Adjustment of Convergence and Parallax”** for high quality, stereoscopic fundus images through any pupil size. Precise selection of the observation and illumination optics for small pupils down to 1.0 mm.
- ∴ **Excellent optical performance due to the multi-coated illumination system.** Exact vertical alignment of the illumination with the observation path further minimising the reflections.
- ∴ **Due to the mounting of the optics on an aluminium frame,** the OMEGA500 is solid, long lasting, and is guaranteed to be dustproof.
- ∴ **The HC50 L Headband Rheostat controls the LED<sup>HQ</sup> illumination as well as the XHL Xenon-Halogen illumination.**

- ∴ LED<sup>HQ</sup> or XHL technology
- ∴ Unique synchr. adjustment
- ∴ Dustproof

#### Technical Specifications:

- ∴ **Apertures and Filters:** Can be “locked” into a desired position.
- ∴ **Adjustment Levers:** Also feature a “Friction-Clutch” (“Safety-Clutch”) to protect mechanisms from forced adjustment while in the “lock” position.
- ∴ **Increased PD Range:** From 46 – 74 mm.
- ∴ **Soft Touch Controls:** All key adjustment controls feature soft touch surfaces for precise and positive adjustment control.

HEINE OMEGA500  
Operation film

HEINE OMEGA500

Separate fine-tuning of the illumination beam  $\pm 4^\circ$  in addition to synchronised convergence and parallax adjustment.

HEINE Diffuser, 3 integrated spot sizes: small spot, medium and large. 3 integrated filters: red-free, cobalt blue and yellow filters.

Synchronised adjustment of convergence and parallax.

LED NOW IN HEINE QUALITY.

### LED<sup>HQ</sup>-Technology for HEINE OMEGA® 500:

LED now in HEINE quality. The sophisticated LED<sup>HQ</sup> system provides for longer operation time, exact dimmability and excellent colour rendering.

- ∴ HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management to a colour rendering index as high as possible.
- That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- ∴ **Special optical interface to precisely integrate the LED illumination with the optical system** to ensure bright, homogeneous light throughout the whole working life of the LED – for an accurate diagnosis.
- ∴ With the **Rheostat HC50 L** the light intensity can be precisely adjusted – especially in the range of low light intensities.
- ∴ **Convert your XHL Xenon Halogen OMEGA500 to LED:** With an upgrade kit the OMEGA500 can easily and quickly be adapted to the new technology.

## HEINE OMEGA® 500 Headband

### with unique features

- ∴ **Articulating hinge** provides vertical adjustment of the rear band of the headband for individual placement. Secure and perfect fit for all shapes and sizes.
- ∴ **Ergonomic design** for optimal weight transfer across the surface of the entire headband (no pressure points).
- ∴ **Softer, malleable material.** Provides even and comfortable fit of the headband.
- ∴ **Calibrated overband position** ensures optics are in true horizontal position for precise adjustment and alignment.
- ∴ **Integrated cables** in overband eliminates the usual “cable loop” from instrument to headband.
- ∴ **Registered design.**

[01]

#### Technical Specifications:

∴ **HC50 L Headband Rheostat:** Easily mounted on the left or right sides of the headband [01].

[02]

∴ **Integrated flip-up adjustment:** To raise optics out of the line of sight. Can be mounted on the left or right side of the headband. Optics can be flipped and locked at 0°, 12.5°, 47.5°, 60° degrees [02].

∴ **Mechanically reinforced adjustment mechanisms:** For durability and precise adjustment of the headband.

## HEINE OMEGA® 500 Kits

### XHL OMEGA 500 LED Conversion Kits.

With these kits, a XHL illumination OMEGA500 can be converted to LED illumination.

Upgrade-Kits OMEGA 500	LED – 6V
Upgrade-Kit OMEGA500 with LED module [01] and HC50L [02]	<b>X-008.16.325</b>
LED module for OMEGA500 [01]	<b>X-008.87.200</b>

### OMEGA500 Kits

Recommended product order configurations to ensure the most flexibility the OMEGA500/EN50 System has to offer. The following kits include main system elements but no carrying cases or ancillary accessories.

OMEGA 500 Kits	XHL – 6V	LED – 6V
Consists of OMEGA500, HC50L Headband Rheostat, connecting cord Cinch		
<b>Kit 1:</b> with plug-in transformer for HC50L	<b>C-004.33.537</b>	<b>C-008.33.531</b>
<b>Kit 2:</b> with EN50 transformer complete (incl. EN50 Rheostat Control Module, extension cord Cinch-Cinch 2m, 90° angled adaptor, instrument support)	<b>C-004.33.538</b>	
<b>Kit 3:</b> with mPack and plug-in transformer (incl. 90° angled adaptor) [01]	<b>C-004.33.539</b>	<b>C-008.33.533</b>

## HEINE OMEGA® 500 Sets

### Set complete with OMEGA 500 Head-worn Indirect Ophthalmoscope

1 scleral depressor large, 1 scleral depressor small, A.R. 20D ophthalmoscopy lens, pad with 50 fundus charts, teaching mirror, 1 spare bulb if with XHL illumination, in hard case with:

OMEGA 500 Sets	XHL – 6V	LED – 6V
HC50L Headband Rheostat with plug-in transformer (incl. connecting cord Cinch)	<b>C-283.40.320</b>	<b>C-283.41.320</b>
<b>EN50-m Charger with mPack, HC50L Headband Rheostat</b> (incl. connecting cord Cinch, 90° angled adaptor, 2m extension cord Cinch-Cinch, instrument support)	<b>C-283.40.302</b>	
<b>mPack with plug-in transformer, HC50L Headband Rheostat</b> (incl. connecting cord Cinch, 90° angled adaptor)	<b>C-283.40.670</b>	<b>C-283.41.670</b>

HEINE OMEGA® 500 UNPLUGGED

with headband battery mPack UNPLUGGED

- ∴ 100% freedom of movement
- ∴ Low weight
- ∴ Charge status indicator

100% freedom of movement – no cable connections!  
The OMEGA500 Ophthalmoscope with mPack UNPLUGGED rechargeable battery allows one-of-a-kind mobility without restriction or hindrance caused by cables, cords, or similar connections.

- ∴ **Rechargeable battery integrated on the headband.** No interfering cable connections.
- ∴ **Lightweight with balanced weight distribution.** High level of comfort. Lightweight and compact.
- ∴ **mPack UNPLUGGED rechargeable battery.** Charging time typ. 2 hours. Operating time typ. 8 hours with LED illumination, typ. 2 hours with XHL illumination (with standard lamp 6V, 5W).
- ∴ **Charge Status Indicator.** Indication of remaining operating time.
- ∴ **Can be recharged by wall charger or plug-in transformer.**
- ∴ **Intelligent charging system.** Automatic changeover from operating to charging mode (in the wall unit). Battery-friendly charging.
- ∴ **Direct operation possible while charging** through the use of the mobile plug-in transformer.
- ∴ **Top safety standards.** Integrated charge and performance checks during operation. Lithium polymer technology. UL-compliant.
- ∴ **System compatibility** with mPack for even greater capacity.

OMEGA500 UNPLUGGED Kits	XHL – 6V	LED – 6V
Consists of OMEGA500, HC50L Headband Rheostat, without case:		
<b>Kit 5:</b> with plug-in transformer UNPLUGGED, 1 x mPack UNPLUGGED	<b>C-004.33.541</b>	<b>C-008.33.535</b>
<b>Kit 6:</b> with Wall unit EN50 UNPLUGGED charger, 2 x mPack UNPLUGGED	<b>C-004.33.542</b>	<b>C-008.33.536</b>
<b>Kit 7:</b> with Wall unit EN50 UNPLUGGED charger, 1 x mPack UNPLUGGED	<b>C-004.33.543</b>	<b>C-008.33.537</b>
XHL Xenon Halogen spare bulb 6V, 5W	<b>X-004.88.111</b>	
Extension cord from plug-in transformer UNPLUGGED to mPack UNPLUGGED, 2m		<b>X-000.99.668</b>

HEINE OMEGA® 500 UNPLUGGED Set

Set complete with **OMEGA 500 UNPLUGGED**, 1 scleral depressor large, 1 scleral depressor small, A.R. 20D ophthalmoscopy lens, pad with 50 fundus charts, teaching mirror, 1 spare bulb in case of XHL illumination, in hard case with:

OMEGA 500 UNPLUGGED Set	XHL – 6V	LED – 6V
mPack UNPLUGGED and plug-in transformer UNPLUGGED	<b>C-284.40.670</b>	<b>C-284.41.670</b>

## HEINE OMEGA® 500 with DV 1 Digital Video Camera

### High-resolution digital imaging of the fundus

- EXCLUSIVELY AT HEINE**
- Integrated focus adjustment
  - 5 MP resolution
  - Simple operation

- **5 MP resolution.** Capable of capturing high-resolution videos or still shots of examinations. No disturbing picture noise due to increased light sensitivity of the camera – also suitable for the examination of premature babies. Perfect for sharing the examiner’s view with a wider audience, educating patients on the diagnosis, recording techniques for presentations, and patient records.
- **Simple operation.** Digital imaging without any additional adjustments. Simply start recording and the image as seen through the OMEGA500 will be displayed on the screen.
- **Comfortable and balanced fit.** The OMEGA500 headband distributes the low weight of the compact camera and optics perfectly and ensures a comfortable fit.
- **Integrated focus adjustment.** The high depth of focus combined with an easily accessible focus adjustment, even for the assistant, ensures crisp, in-focus imaging.
- **Interface and software.** Will plug into any laptop or computer via USB 2.0 interface. Supplied with software program for video recording and image capture.
- **Cable-free power source system** with mPack UNPLUGGED rechargeable battery.
- **Integrated camera design.** The integrated camera system ensures precise alignment with the optical system of the Indirect Ophthalmoscope. Robust, dustproof design. No further adjustment of mirrors necessary for digital imaging.

## HEINE SIGMA® 250 Binocular Indirect Ophthalmoscope

### Spectacle-mounted Ophthalmoscope – with LED<sup>HQ</sup> illumination

The spectacle-mounted indirect Ophthalmoscope to suit any pupil size. Two separate controls for selecting the **ideal setting of parallax and convergence guarantee completely illuminated stereo views in pupils up to 2 mm, as well as viewing in the periphery.** The illumination beam can be adjusted by  $\pm 3^\circ$  to eliminate reflexes.

- ⌘ **Power Source mPack mini – compact and light power source with USB charging option.** With a weight of just 95 g and dimensions of 44x23x101 mm, this mobile power source is now approx. 70 % smaller and lighter than its predecessor. Typ. 11 hours in continuous operation at maximum power.  
**Please note:** The SIGMA250 is still compatible only with mPack mini.
- ⌘ **Extremely light, 110 g without frame.** Light and comfortable.
- ⌘ HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- ⌘ **Lightweight frame.** High tensile carbon fiber construction is lightweight and has excellent stability.
- ⌘ **Illumination beam adjustable  $\pm 3^\circ$ .** Eliminates reflexes.
- ⌘ **Integrated red-free filter.** Improves contrast.
- ⌘ **Optional blue and yellow filters.**
- ⌘ **Large and small apertures.**
- ⌘ **Dust proof.** Maintenance-free.
- ⌘ **PD selection from 47 to 72 mm.** Suits any user.
- ⌘ **Optics on swivel mount.** Unrestricted view.
- ⌘ **Optional clip-in correction frame** for prescription lenses.

## HEINE Hand-held Indirect Ophthalmoscope, MONOCULAR

### Compact monocular ophthalmoscope

An unusually compact instrument, which is recommended for visits and mobile use.

- ∴ **Durable metal construction.** Long working life.
- ∴ **Built-in interference red-free filter.** Improves contrast.
- ∴ **All optical components made of coated optical glass.** Precise images and high light intensity.
- ∴ **Adjustable light beam.** Useful for small pupils.
- ∴ **One hand operation.** All control elements can be easily reached with the thumb.
- ∴ **+3 D lens attachment.** An aid to accommodation, magnifies the image.
- ∴ **Add-on binocular attachment available.** Instrument can be up-dated for binocular use.

[01]

Model Eyes

**HEINE Skia/Retinoscope Trainer**

This model eye is ideal for teaching and practice. The pupil diameter and refractive error can be set exactly and are therefore reproducible. The front lens compartment holder accepts up to two trial lenses. The cylinder can be read from the graduated scale.

- ∴ **Scale:** 0° – 180° for cylinder determination.
- ∴ **Diameter of pupil variable:** 2, 3, 4, 5, 6, 8 mm.
- ∴ **Optics:** Optical glass, achromatic lens, focal length F = 32 mm.
- ∴ **Trainer body made of metal:** Extremely stable and durable.
- ∴ **Angle of examination variable.**

**Model Eye**

Skia/Retinoscope Trainer

**C-000.33.011**

Model Eyes

**HEINE Ophthalmoscope Trainer**

This model eye was developed for the teaching environment. It is the first adjustable model from HEINE to mimic the human eye. Precise, durable and with a multitude of uses, it simplifies the learning process and encourages the student to practice with the ophthalmoscope.

- ∴ **Diameter of pupil.** Variable 2, 3, 4, 5, 6, 8 mm.
- ∴ **Aspheric optical glass lens.** Focal length F = 18mm. Lens curvature matches that of the retina.
- ∴ **Trainer body.** Made of metal – extremely stable and durable.
- ∴ **Angle of examination,** variable.

**Model Eye**

Ophthalmoscope Trainer

**C-000.33.010**

## HEINE® A.R. Aspheric Ophthalmoscopy Lenses

### With anti-reflex A.R. coating

- ⋮ **Advanced triple multicoating.** Reduced reflection, excellent light transmission.
- ⋮ **Lens curvature matches that of the retina.** Perfect, distortion-free retinal image.
- ⋮ **Large diameter.** Significant increase in field of view without magnification loss.
- ⋮ **Aspheric surfaces.** Reduced distortion of the periphery.

## HEINE® Classic+ Macintosh Fiber Optic (F.O.) Blades

### Innovative Fiber Optic Technology for advanced performance

Our new, innovative manufacturing technology achieves even better illumination and a longer service life.

- ∴ **The HEINE HiLite Fibre Optic (F.O.) fiber bundle, optimised for use** with up to 6,500 individual fibres and refined directional characteristics, achieves the best possible illumination of the pharynx even after 4,000 sterilisation cycles. For simple and safe intubation.
- ∴ **The new one-piece design from chrome-plated, stainless, high-grade steel** makes the Classic+ F.O. blade even more resistant to the oxidation and/or corrosion damage that can occur in the reprocessing process due to intense use.
- ∴ **HEINE Classic+ blades have no screwed joints, no external fiber bundles and no openings that could contaminate.**
- ∴ **The clean shape without any edges or corners is easy to clean and sterilise.**
- ∴ **Compatible with all handles** to the ISO 7376 (green standard).
- ∴ **5 years guarantee.** 4000 standard autoclave cycles of 134 °C/4 min. with more than 1000 lux.

HEINE® Classic+ Miller, WIS and Paed Fiber Optic (F.O.) Blades

Innovative Fiber Optic Technology for advanced performance

- ∴ **The Miller Classic+ blades with improved geometry simplify intubation.**  
The shortened shoulder of the blade dramatically improves the anesthetist's view of the epiglottis and vocal cords. The distal lip of the blade features a special atraumatic shape.
- ∴ **HEINE HiLite fiber bundle** with up to 6,500 individual micro-fibers for improved light transmission and longer life.
- ∴ **Both ends of the large fiber bundle** are protected – for life.
- ∴ **HEINE Classic+ blades have no screwed joints**, no external fiber bundles and no openings that could contaminate.
- ∴ **The clean shape without any edges or corners is easy to clean and sterilise.**
- ∴ These blades need **no maintenance** – ever.
- ∴ **Compatible** with all handles to the ISO 7376 (green standard).
- ∴ **High-quality design from chrome-plated, stainless, high-grade steel.**
- ∴ **5 years guarantee.** 4000 standard autoclave cycles of 134 °C/4 min. with more than 1000 lux.
- ∴ **HEINE Paed laryngoscopes** have been developed specifically for the intubation of neonates and infants.

- ∴ Easy intubation
- ∴ 4000 autoclave cycles
- ∴ 5 year guarantee

## HEINE® FlexTip+ Fiber Optic (F.O.) Laryngoscope Blade

### A useful Tip for a difficult intubation

⚡ Swivelling blade tip

⚡ Clear view

⚡ 5 year guarantee

[01]

The FlexTip+ is a Macintosh Laryngoscope Blade with a tip which is adjustable through 70°. A lever controls the tip angle during intubation to lift the epiglottis, giving a clear view of the vocal cords. Contact with the upper row of teeth and unnecessary pressure on the tongue and soft tissue are avoided.

- ⚡ **HEINE HiLite fiber bundle.** With up to 6500 individual micro-fibers for improved light transmission and longer life.
- ⚡ **Integrated Fiber Optics for the best possible illumination.**
- ⚡ **High-quality design from chrome-plated, stainless, high-grade steel.**
- ⚡ **Swivelling blade tip facilitates difficult intubation.**
- ⚡ **Reduced likelihood of damage** to teeth and soft tissue.
- ⚡ **Fits all standard F.O. handles** (green standard). Exception: F.O. Angled Handle.
- ⚡ **5 years guarantee.** 4000 standard autoclave cycles of 134 °C/4 min. with more than 1000 lux.

## HEINE® XP Disposable Laryngoscope Blades

### Eliminate cross-infection

XP Miller

The Disposable Laryngoscope Blade features the HEINE Classic+ blade shape of the world's best-selling integral fiber optic blade. With proper use the disposable XP blade avoids cross-infection from one patient to the next.

- ∴ **No danger of cross-infection.**
- ∴ **Hygienic and safe.**
- ∴ **Optimum light transmission** by oversize light guide.
- ∴ **Extremely bright:** Highest level of illuminance with HEINE 2.5V or 3.5V LED illuminance within laryngoscope insert.
- ∴ **Blade shape optimized to ease the passage of the tube.**
- ∴ **Patient-friendly** with **reduced risk of injury** or damage to teeth.
- ∴ **Extreme torsional stiffness**, practically unbreakable.
- ∴ **Blades do not “freeze”** or stick to the tongue at low temperatures.
- ∴ **Compatible** with all handles to the ISO 7376 (green standard).

\* 25 disposable blades individually packed in Dispenser Box.

For HEINE XP Emergency Set, please see page 090.

⊗: Single use only.

## HEINE® XP Disposable Laryngoscope Handle Shell

### Eliminates cross-infection

The disposable laryngoscope handle shell with the globally distributed laryngoscope insert is powered by the best-selling battery insert for HEINE F.O. handles. The laryngoscope insert can be removed from the handle shell after intubation without risk of contamination.

#### XP Disposable Laryngoscope Handle Shell with bottom insert

without laryngoscope insert, pack of 25

F-000.22.926

with XHL illumination and Standard F.O. 4 NT Bottom Insert	-	-	F-007.22.893*
with LED illumination and Standard F.O. 4 NT Bottom Insert	-	-	F-008.22.893*
XHL Xenon Halogen spare bulb	X-001.88.035	X-002.88.044	X-002.88.044

\* Please note: The Laryngoscope insert with the HEINE F.O. 4 NT Bottom Insert can only be charged in the HEINE NT 4 Table Charger.

⊗: Single use only.

The XP disposable handle shell was especially designed for use with HEINE laryngoscope inserts. The HEINE laryngoscope insert is placed inside the disposable handle shell and the light is activated by turning the bottom insert. Following intubation, the user simply unscrews the bottom insert and the laryngoscope insert can be removed with no risk of contamination. The handle shell, the bottom insert and the XP blade are all disposed of.

## HEINE EasyClean® LED Laryngoscope Handle

Now all three handle sizes: **STANDARD, SLIM AND SHORT**

**LED HQ**  
LED NOW IN HEINE QUALITY.

The HEINE EasyClean LED Laryngoscope Handle was developed to allow even simpler, faster and safer hygienic reprocessing of the handle – no complex disassembling and assembling of batteries and light unit. This saves the technical service personnel a great deal of time, and reduces the training and maintenance effort.

### SIMPLE, FAST AND SAFE CLEANING

- **Non-slip “Wave Design”** improves the reliability of the wipe disinfectant for the handle after use (‘Intermediate Disinfection’).
- **100% waterproof.** In the case of immersion disinfection (‘High-Level Disinfection’) or low temperature sterilisation processes (STERRAD®, STERIS®), neither the batteries nor the LED light unit need to be removed.
- **Autoclavable LED technology:** No removal of the light unit required for use in autoclaves, just batteries.

### PERFECT VIEW

- HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity and thermal management to a colour rendering index as high as possible.  
**That’s what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- **Maximum brightness:** 3x brighter than conventional halogen light.
- Virtually **unlimited hours of working life.**

- EXCLUSIVELY AT HEINE**
- 100% waterproof
  - Autoclavable LED technology
  - Simple, safe reprocessing

### FAIL-SAFE

- **Typ. 10 hours of operating time** (EasyClean LED Laryngoscope Handle in continuous operation).
- **Fade-Out Feature:** brightness reduces slowly as battery operating time diminishes, for even more efficient battery use.
- **Compatible with all laryngoscope blades** according to ISO 7376 (Green Standard).

## HEINE DELTA® 20 T Dermatoscope

### You can't treat what you can't see

**LED<sup>HQ</sup>**  
LED NOW IN HEINE QUALITY.

[01]

- ∴ **Crystal clear, high-resolution images** thanks to the high-quality achromatic optical system. The focusing system delivers 10 to 16x magnification for a detailed view of even the smallest structures.
- ∴ **Toggle function for switching between polarised and non-polarised illumination mode.** With the press of a button. No exchange of contact plates necessary. The additional diagnostic function allows detection of 'blink signs' when viewing crystalline structures and milia.
- ∴ **Glare-free and reflection-free view thanks to polarisation, even without immersion fluid.** For fast and flexible work.
- ∴ **With just one hand:** individual focusing, range of correction approximately -6 to +6 dpt.
- ∴ HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity and thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- ∴ **The DELTA20 T is also capable of digital documentation:** using the HEINE digital camera lens system, the dermatoscope can be connected to the SLR cameras of major brands without any issues. Specially developed photo adaptor lenses combine the camera and DELTA20 T to create an unbeatable pair.

HEINE DELTA 20 T film

- ∴ **Special small contact plate for the examination of difficult-to-access lesions, for instance between the fingers or toes.** See page 097 for order information.

HEINE® iC 1 Dermatoscope

Dermatology goes digital. And mobile.

Free  
HEINE iC 1 App

∴ **Sharp, sharper, sharpest.** The HEINE iC 1 is a device designed for capturing clinical and dermatoscopic images for documenting and supporting differential diagnosis of melanomas and other skin lesions. And in our unrivalled quality. Sharp and shadow-free.  
Thanks, on the one hand, to our precise, aspherical optical system and, on the other, the 12-megapixel image quality when using an iPhone®\* 6s or a later model. Simply download iC 1 App, insert your iPhone and experience digital dermatoscopy like never before.

∴ **Big, bigger, biggest.** The high-quality aspherical optical system with up to 40x true magnification offers everything you need in a practice.  
∴ HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity and thermal management to a colour rendering index as high as possible.

**That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**

∴ **At the press of a button – the toggle function.** With two switching buttons, the option to switch back and forth between polarisation and immersion images is always within easy reach, regardless of the working position.

∴ **Many see a smartphone. We see an exceptional camera and first-class display.** We've opted for the iPhone for reasons of quality, user orientation and costs. From our perspective it offers the best camera, a display with the highest resolution and the most progressive touchscreen technology.

∴ **A WHOLE NEW DIMENSION OF SKIN SCREENING: HEINE CUBE SYSTEM.** Image and data management for up to ten mobile, digital HEINE iC 1 dermatoscopes. Just one highly intelligent investment can help integrate patient data, manage images, monitor progression and increase patient loyalty – and makes work independent, convenient and intuitive. More information can be found on our website: [www.heine.com/en/digital](http://www.heine.com/en/digital)

## HEINE® NC 2 Dermatoscope

### The all-in-one dermatoscope

**LED<sup>HQ</sup>**  
LED NOW IN HEINE QUALITY.

Laden im  
**App Store**  
Free  
HEINE NC2 App

- ∴ **Precise images.** The contact plate [01] achieves a clear, reflection-free and highly detailed image in 10× magnification, even without immersion fluid.
- ∴ **Non-contact.** Without the magnetically-held contact plate [02], the NC2 is used for non-contact examination in 6× magnification for hygienic and efficient skin examination with a large field of view.
- ∴ **Digital.** The optional iPhone®/iPod®\*\* accessory and the free NC2 app we've developed allow you to use the NC2 like a digital camera. With up to 30× digital magnification and up to 12-megapixel resolution.\*\* Including an extensive range of documentation options: integrated patient management, email function, classification of image information, and patient details on a bodymap. Even in non-contact mode.
- ∴ **Polarised illumination** for immediate examination without the use of contact fluids.
- ∴ HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity and thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- ∴ **An especially large overview field** thanks to HEINE precision optics (lens with 27 mm diameter) for crystal clear, high-resolution images.
- ∴ **Ocular adjustable** from 0 to +3 dpt for correction and refocussing.
- ∴ **Micro-USB connection** for charging the integrated Li-ion battery. The rechargeable battery can be replaced by authorised specialist dealers.

\* The Apple iPhone or iPod touch is not included in the scope of delivery. Apple, the Apple logo, iPhone and iPod touch are trademarks of Apple Inc., registered in the U.S. and other countries. App Store is a service mark of Apple Inc.  
\*\* with iPhone from Version 6s

HEINE mini3000® LED Dermatoscope

Even our smaller models are great

- ∴ **Modern pocket dermatoscope with handy dimensions:** small on the outside, but huge on the inside.
- ∴ HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity and thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE Quality – or LEDHQ.**
- ∴ **Twice as bright** as a conventional XHL Xenon Halogen dermatoscope with maintenance-free LEDHQ illumination – no longer a need to replace the light source.
- ∴ **Exclusive Battery Performance Indicator:** When the instrument is switched on, the maximum light intensity is shown, then the light intensity is regulated down to the level that corresponds to the current charge status of the battery so you know when your batteries need changing.
- ∴ **Fade-Out Feature:** brightness reduces slowly even with low residual capacity, for even more efficient use of dry or rechargeable batteries.
- ∴ **10x magnification** with focusing optics.
- ∴ **Instrument head made of metal.**
- ∴ **20,000 ON/OFF switch cycles guaranteed.**
- ∴ **Distortion-free image** with high resolution edge to edge thanks to high-quality, colour-neutral achromatic optical system.
- ∴ **Special small contact plate** for the examination of difficult-to-access lesions, for instance between the fingers or toes.
- ∴ **Handle in black or blue.**

## SHOCKPROOF

## SHOCKPROOF

**[01] Shockproof double-walled construction with unique manometer protection.**

The robust double-walled construction with a unique triple manometer mount gives ideal protection against shocks. Meets the requirements of European Standard EN ISO 81060-1 and ANSI/AAMI/ISO 81060-1.

## AIR PRESSURE DISTRIBUTION SYSTEM

**[02] Single-tube construction with an innovative air pressure distribution**

**system.** The valve construction provides ideal air pressure conditions to absorb pressure peaks in the air flow to the manometer during inflation. This advantage was only possible until now with twin-tube systems.

CLINICAL APPROVAL

## HEINE GAMMA® G7

The model with aluminium alloy construction and precision valve

∴ Shockproof

∴ Latex-free

∴ Aluminium upper housing

∴ 10 year guarantee

- ∴ Shockproof.
- ∴ Latex-free.
- ∴ Exclusive pressure-distribution system.
- ∴ Pressure-proof manometer. Ensures durability and reliability.
- ∴ Micro filter. Protects valve and manometer.
- ∴ Large diameter scale. 56 mm diameter black-on-white scale is easy to read.
- ∴ High quality indicator. Precisely calibrated, durable and shock resistant.
- ∴ Large insufflation bulb. 50 % larger bulb volume for fast inflation of the cuff.
- ∴ Exclusive air-release valve. Provides fine and precise air release rate adjustment, quick deflation, and extreme durability. A rubber-stop prevents valve-lock.
- ∴ Upper housing made of aluminium alloy with a shock absorbing ring protecting indicator and glass.
- ∴ Lower housing is moulded of shockproof plastic with shock absorbing, anti-slip coating.
- ∴ Light alloy, adjustable spoon. For both right- or left-handed operation.
- ∴ High quality, single-tube cuff with velcro fastener. Washable.
- ∴ Ergonomic design: G7 is perfectly balanced for comfort and ease of use.
- ∴ 10 year guarantee.\*

\*against defects in design, materials and workmanship for a period of 10 years from the date of purchase.

[01]

- ∴ **Outstanding measurement accuracy with absolutely precise results (+/- 3 mmHg).**
- ∴ **Digital, fully automatic and with intuitive menu navigation.** Easy to use, optimises the workflow and saves time.
- ∴ **Graphic display with 16 mio. colours and touch screen.**
- ∴ **Reliably detects cardiac dysrhythmia and motion artifacts.**
- ∴ **Improved hygienic reprocessing** due to optimised design and without any moving control elements.
- ∴ **Three measuring modes.** Two automatic and one manual measurement mode: rapid single measurements, double measurements and manual measurements (auscultation with stethoscope). Offers reliable and medical relevant measuring values for a professional diagnostic in every situation of day-to-day medical care.
- ∴ **Quick release connector.** Cuffs (reusable cuffs and single-patient use cuffs) can be changed within seconds – the correct cuff size for every patient.
- ∴ **Capable of memorising** recent blood pressure and pulse readings. 500 memory spaces per measurement mode.

Core ABPM Measure Technology exclusively manufactured for HEINE by ERKA.

## EN200 BP Automatic Digital Sphygmomanometer

EN200 BP **as single module** with long USB cord and E4-USB plug-in power supply, coiled tubing to connect cuffs, without cuffs [01]

M-000.09.202

EN200 BP **for use with the EN200 Wall Transformer** (with short USB cord), coiled tubing to connect cuffs, without cuffs

M-000.09.201

## EXCLUSIVELY AT HEINE

- Outstanding measurement accuracy
- Digital, fully automatic
- Memory capacity

- ∴ **The HEINE Cuff Basket** offers an optimised workflow.

## HEINE® EN200 BP Sets

## EN200 BP as Single Module

Set complete with EN200 BP as single module (and long USB cord, E4-USB plug-in power supply), coiled tubing to connect cuffs, 3 Quick Cuff reusable cuffs (adult, small / adult / adult, large)

M-000.09.171

## EN200 BP for EN200 Wall Transformer

Set complete with EN200 BP for use with the EN200 Wall Transformer (and short USB cord), coiled tubing to connect cuffs, 3 Quick Cuff reusable cuffs (adult, small / adult / adult, large)

M-000.09.170

Due to local regulations, some products may not be available in your country.

Cuffs for EN200 BP

**Various cuffs for every area of application**

- ∴ **Easy handling.** Cuff with integrated bladder. Simplified hygienic reprocessing.
- ∴ **Excellent skin compatibility.** Latex and PVC free. Biocompatible.
- ∴ Available as **Reusable Cuffs** or **Single-Patient Use Cuffs**.
- ∴ **Colour-coded tubes** (every cuff size has a different colour).

## HEINE GAMMA® STETHOSCOPIES

- ∴ **Solid chest piece** and ideal weight avoid stray noise from manipulation and ensure excellent resonance. Hygienic matt chrome finish.
- ∴ **Chest piece with non-chill rims** for the comfort of the patients.
- ∴ Ergonomic, chrome-plated binaurals. Individually adjustable.
- ∴ **High-quality Y-piece tubing** for perfect acoustics and sound reproduction. Length 56 cm.
- ∴ **Latex-free** materials.

### HEINE GAMMA® 3.1 Pulse Stethoscope

**For fine acoustic performance.**

- ∴ **Stethoscope with solid flat chest piece.** The chest piece can be easily inserted under the sphygmomanometer cuff.
- ∴ **High-quality membrane**, 44 mm dia.
- ∴ **Single-tube construction** with excellent sound transmission.
- ∴ **Includes ear olives** (large/soft) for sound insulation.
- ∴ **Optional available:** Ear olives, (small/hard) (M-000.09.946).

GAMMA 3.1

M-000.09.941

### HEINE GAMMA® 3.2 Acoustic Stethoscope

**For excellent acoustic performance.**

Technical data as GAMMA 3.1, but with a double chest piece.

- ∴ **Combined double chest piece** with two different frequency ranges to choose from: A high-quality membrane on one side and a conical acoustic head on the other side.
- ∴ **High-quality membrane**, 44 mm diameter for excellent acoustic performance and sound transmission.
- ∴ **Cone diameter 30mm.**

GAMMA 3.2

M-000.09.942

### HEINE GAMMA® 3.3 Acoustic Stethoscope

**For the examination of children.**

Technical data as GAMMA 3.2.

- ∴ **Reduced contact area** of 31 mm makes GAMMA 3.3 ideal for examining children.

GAMMA 3.3

M-000.09.943

### HEINE GAMMA® C3 Cardio Stethoscope

**Specially developed for cardiology.**

- ∴ **Exceptional acoustic performance**, particularly in the cardiac frequency range.
- ∴ **Combined double chest piece** with two different frequency ranges. Instant selection of a double membrane on one side or a conical acoustic head on the other.
- ∴ **High-performance double membrane**, 45 mm diameter gives ideal sound transmission and perfect skin contact for exceptional sound reproduction.
- ∴ **Two-in-one tube system** for enhanced performance. Very supple, yet kink-resistant with exceptional acoustic reproduction.
- ∴ **Includes ear olives** (large/soft) and one pair of replacements (small/hard) for sound insulation.

GAMMA C3

into  
the dark.**

### Instrument Head for HEINE UniSpec® Tubes

Illumination by Fiber Optic cable and projector or 3.5V BETA Handle with illumination adaptor (X-002.98.002).

- ∴ **Annular Fiber Optic illumination.** Bright, reflex-free illumination.
- ∴ **Magnifying lens 1.5x.** High-resolution image.
- ∴ **Hinged viewing window with insufflation port.** Improved vision by insufflation.
- ∴ **Stainless Steel.**

Instrument head for UniSpec Disposable Tubes	
complete with viewing window and swivel lens 1,5x [01]	E-003.18.100
without viewing window and swivel lens	E-003.18.098
Viewing window only [02]	E-003.18.099
Swivel lens 1.5x, only (for sigmoidoscopes) [03]	E-003.18.096
same, but 1.8x (only suitable for proctoscopes and anoscopes)	E-003.19.099

### HEINE UniSpec® Disposable Tubes

85x20mm    130x20mm    250x20mm

- ∴ **Disposable.** No cross-infection.
- ∴ **No cleaning required.** Saves time.
- ∴ **Moulded in patient-friendly thermoplastic.**  
No cold sensation on insertion.
- ∴ **Light transmission through the tube wall.** Distal annular light exit.  
Bright, homogeneous illumination of the area examined, reflex reduction.
- ∴ **Graduated inside the tube for patient comfort.** Indication of insertion length.

UniSpec Disposable Anoscopes (85 x 20 mm)	
Pack of 25 disposable anoscopes	E-003.19.925
Box of 100 (4 packs of 25) anoscopes	E-003.19.911

Pack of 25 disposable sigmoidoscopes	E-003.18.825
Box of 100 (4 packs of 25) sigmoidoscopes	E-003.18.811

⊗: Single use only.

## HEINE Anoscope/Proctoscope Illumination Head

[01]

**One single illumination head for all the tubes shown on this page.**

For 2.5V or 3.5V handle or Fiber Optic illumination with Fiber Optic projector and cable.

- ∴ **A wide range of tubes with either direct or 90° direction of view available.** Many different diagnostic and treatment methods are possible.
- ∴ **Tubes can be rotated through 360°.** Select the ideal position for treatment or examination.
- ∴ **Viewing window and swivel lens both offer 2x magnification.** High-resolution image.
- ∴ **Smooth, rounded surface.** Easy to clean. F.O. version can be cleaned with conventional disinfectants.

**Let  
there  
be  
LIGHT.**

## HEINE EL 10 LED® Examination Light

### A real highlight in all respects with LED<sup>HQ</sup> illumination

The EL10 LED examination light distinguishes itself through an absolutely homogeneous field of light. The light intensity can be regulated continuously. The diameter of the spot size can be freely adjusted between 8.5 and 14 cm, with a working distance of 30 cm. Controls with ergonomic grip allow for intuitive and fast adjustment of brightness and spot size. The compact illumination head (Ø approx. 60 mm) allows an almost coaxial illumination, particularly in difficult application situations.

- ∴ **Bright and homogeneous.** Perfect illumination in every examination situation. unobstructed view of the ear canal and tympanum.
- ∴ HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE quality – or LED<sup>HQ</sup>.**
- ∴ **3 different mounting options.** Wall mounting, clamp for table-top mounting or on a wheeled stand.
- ∴ **Solid construction.** Reliable operation and illumination power for many years.
- ∴ **Hygiene.** Easy and efficient cleaning and disinfection.
- ∴ **Coiled goose neck.** Easy and intuitive adjustment.
- ∴ **An electrical control system** monitors all functions and guarantees safety.

∴ Continuous adjustment

∴ One-hand operation

∴ Compact design

Mount for wheeled stand [04]	J-000.27.014

## HEINE EL3 LED Examination Light

### Simply bright LED illumination in LED<sup>HQ</sup>

**LED<sup>HQ</sup>**  
LED NOW IN HEINE QUALITY.

- ⚡ **Simply bright.** The EL3 LED provides bright, shadow-free illumination precisely at the point of interest.
- ⚡ HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity and thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE quality – or LED<sup>HQ</sup>.**
- ⚡ **Shadow-free illumination.** The compact illumination head (Ø approx. 60mm) allows convenient, precise positioning, particularly in difficult application situations. Optimal positioning eliminates unwanted shadows in the illuminated field.
- ⚡ **Maintenance-free and easy to clean.** Cool-Touch closed head design makes disinfection safe and easy.
- ⚡ **Optimal positioning.** The light weight head and stable goose neck allow easy and intuitive adjustment and keep the light exactly in the required position.
- ⚡ **Various mounting options.** Wall mounting, clamp for table-top mounting or on a wheeled stand.

- ⚡ Shadow-free illumination
- ⚡ LED in HQ
- ⚡ Maintenance-free and easy to clean

**Once you've  
TRIED  
it, you'll never  
WANT  
to do  
without it  
AGAIN.**

Various magnifications (from 2.3x to 6x), working distances, wearing options (unique S-FRAME, Lightweight Headband and Headband Professional L) and LoupeLight 2 illumination systems are available. They provide homogeneous, reflex-free illumination even in deep cavities. State-of-the-art LED HQ technology and design!

HEINE Binocular Loupes are used in many disciplines: e.g. General Medicine, Dermatology, Surgery, Cosmetic Surgery, Neurosurgery, ENT, Ophthalmology, Veterinary Medicine, Dentistry etc.

### Definitions:

#### ∴ Working distance (x)

The distance, at which the optics of a loupe are sharply-focused.

#### ∴ Depth of field (y)

The range over which the image remains sharply-focused.

#### ∴ Field of view (z)

The area that can be seen under magnification at the nominal working distance.

### How to choose the correct Loupe:

#### ∴ Choose your magnification

Choose the lowest magnification that meets your needs. The lower the magnification, the larger the field of view and the easier the loupe will be to use.

#### ∴ Choose your optics

**HR:** High-Resolution achromatic optics with excellent optical qualities.

**HRP:** High Resolution Prismatic optics with excellent optical qualities for 3.5x magnification and higher.

**C:** Economy.

#### ∴ Choose your working distance

This is an individual choice depending on the examiner's size and working position. The longer the working distance, the bigger the field of view.

#### ∴ Choose your mounting option

Spectacle frame or Headband.

#### ∴ Add illumination

Coaxial bright light is especially-important when using magnification.

## HEINE® HR 2.5x High Resolution Binocular Loupes

### With i-View loupe mount

⚡ Multi-coated Achromatic Optics

⚡ Exceptional Focal Range

⚡ Crisp, High-Resolution Image

⚡ Unique i-View Loupe Mount

### HR 2.5x Optics with i-View

- ⚡ **Achromatic optics** for crisp, bright images with colour-correction.
- ⚡ **Lightweight** (51 g).
- ⚡ **Water-resistant.**
- ⚡ **Independent adjustment** of left and right optics for perfect PD adjustment.
- ⚡ **High magnification** with a large field of view and excellent depth of field.
- ⚡ **i-View loupe mount** provides any angle of view and flips up the optics independently of the optional LoupeLight 2.

### HR 2.5x Specifications

Working distance in mm	340	420	520
Field of view in mm	90	130	180
Depth of field in mm	110	180	260

Optional clip-in correction frame

### Mounting Options:

#### ⚡ HEINE® S-FRAME

- ⚡ **Maximum comfort** with a modern, ergonomic design.
- ⚡ **Malleable temples and nose pad** can be customized to fit any face perfectly.
- ⚡ **Innovative materials** – Carbon-Kynetium reduces weight (24 g).
- ⚡ **Tough polycarbonate protective lenses.**
- ⚡ **Optional clip-in correction frame** for prescription lenses.

Professional L Headband with S-GUARD

#### ⚡ HEINE® Professional L Headband with S-GUARD

- ⚡ **S-GUARD splash protection.**
- ⚡ **Ergonomic nose pad** for comfort during long procedures.
- ⚡ **Fully-adjustable for height and width to fit any head.**
- ⚡ **Hygienic and comfortable leather cushions.**
- ⚡ **Optional clip-in correction frame** for prescription lenses.

Professional L Headband without S-GUARD

#### ⚡ HEINE® Professional L Headband without S-GUARD

- ⚡ **Ideal for spectacle-wearers in combination with their own spectacles.**
- ⚡ **Fully-adjustable for height and width to fit any head.**
- ⚡ **Hygienic and comfortable leather cushions.**

## HEINE® HRP High Resolution Prismatic Binocular Loupes

### With i-View loupe mount

- ⚡ Multi-coated Achromatic Optics
- ⚡ Prismatic for highest magnification
- ⚡ Crisp, High-Resolution Image
- ⚡ Unique i-View Loupe Mount

### HRP Optics with i-View

- ⚡ **Achromatic optics** for crisp, bright images from edge-to-edge.
- ⚡ **Lightweight** (85g).
- ⚡ **Water-resistant.**
- ⚡ **Independent adjustment** of left and right optics for perfect PD adjustment.
- ⚡ **Highest magnification:** Choice of 3.5x, 4x and 6x.
- ⚡ **i-View loupe mount** provides any angle of view and flips up the optics independently of the optional LoupeLight 2.

### HRP Specifications

Working distance in mm	HRP 3.5x/420	HRP 4x/340	HRP 6x/340
Field of view in mm	65	50	40
Depth of field in mm	60	40	30

### Mounting Options:

#### ⚡ HEINE® S-FRAME

Optional clip-in correction frame

- ⚡ **Maximum comfort** with a modern, ergonomic design.
- ⚡ **Malleable temples and nose pad** can be customized to fit any face perfectly.
- ⚡ **Innovative materials** – Carbon-Kynetium reduces weight (24g).
- ⚡ **Tough polycarbonate protective lenses.**
- ⚡ **Optional clip-in correction frame** for prescription lenses.

#### ⚡ HEINE® Professional L Headband with S-GUARD

Professional L Headband with S-GUARD

- ⚡ **S-GUARD splash protection.**
- ⚡ **Ergonomic nose pad** for comfort during long procedures.
- ⚡ **Fully-adjustable for height and width to fit any head.**
- ⚡ **Hygienic and comfortable leather cushions.**
- ⚡ **Optional clip-in correction frame** for prescription lenses.

#### HEINE® Professional L Headband without S-GUARD

Professional L Headband without S-GUARD

- ⚡ **Ideal for spectacle-wearers in combination with their own spectacles.**
- ⚡ **Fully-adjustable for height and width to fit any head.**
- ⚡ **Hygienic and comfortable leather cushions.**

## HEINE® C 2.3 Binocular Loupes

## The cost-effective all-purpose loupe

Ideal for dental laboratories and general medical examination.

C 2.3

- ∴ **Crisp, clear images.** Multi-coated, scratch-resistant silica glass lenses produce crisp, clear images.
- ∴ **Flexibility for precise adjustment.** Independently adjustable PD controls ensure precise alignment of the optics.
- ∴ **Super lightweight and comfortable – only 46g.** Flexible coil temples wrap-around to fit the user's anatomy securely and comfortably. Spring-loaded temples will adjust to the user's anatomy. Lightweight metal frame.
- ∴ **The ideal all-purpose loupe.** The feather-light weight, low-profile design and low cost of the C 2.3 loupe make it the ideal all-purpose loupe.
- ∴ **Working distance.** 340mm or 450mm (13 or 18 inches).
- ∴ Also available as C2.3K on Lightweight Headband.

C 2.3K

Specifications	C 2.3x/340 mm	C 2.3x/450 mm
Magnification	2.3x	2.3x
Working distance	340 mm	450 mm
Field of view dia.	110 mm	130 mm
Weight	46 g	46 g
Depth of Field	120 mm	190 mm

User's refractive error	Effective working distance C 2.3x/340 mm	Effective working distance C 2.3x/450 mm
+2	440 mm	670 mm
+1	390 mm	560 mm
0	340 mm	450 mm
-1	300 mm	420 mm
-2	270 mm	370 mm

**Important information for those who wear glasses:**

The C 2.3K Series loupe can also be worn without the use of spectacles. Should you prefer to examine without glasses, the charts illustrate how your refractive error will affect the loupe working distance. If you are unsure of your prescription, please consult your eye care provider.

## HEINE® LoupeLight 2

### Compact LED<sup>HQ</sup> Headlight – now even brighter

**LED<sup>HQ</sup>**  
LED NOW IN HEINE QUALITY.

**EXCLUSIVELY AT HEINE**

- Compact and Lightweight
- Coaxial Illumination
- Typ. 55,000 Lux

- HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- **Compact, lightweight (50 g).** Ensures perfect comfort.
- **Aluminium Housing.** Exclusive aluminium housing protects the optics against dust and moisture to ensure an extraordinary long lifespan and optimal thermal management.
- **Coaxial Illumination:** Compact coaxial design ensures a completely shadow-free image and allows for excellent illumination of difficult to see areas.
- **Optional Filter.** Polarisation filter P2 improves contrast and yellow filter reduces blue light.
- **Replaceable connecting cord** with high-quality splashproof threaded connector with a length of 1.5 m. Connects the LoupeLight 2 with the mPack mini.
- **Incl. coloured attachment clips for personalisation.** To fixate the cable and to identify your LoupeLight.

#### Technical Specification

Illumination	Typ. 55 000 Lux
Colour Temperature	Typ. 4 000 Kelvin
LED Operating Life	Typ. 50 000 hours
Spot Size	The illuminated field is designed to complement the HR/HRP loupes. 81 mm dia. at 420mm, 95 mm dia. at 520mm working distance
Angle of Declination	Stepless and individually adjustable for every examination
Operating Time	Typ. 9h with mPack mini (in continuous operation at full power typ. 4 hours)

- **Precision multiple lens optical system** consisting of four high-quality lenses. Completely homogeneous illumination of the whole field of view and a clearly defined light spot.

Conventional System [02]

HEINE Precision 4-Lens System [03]

Comparison of homogeneity

## HEINE® mPack mini

### Compact and lightweight power source for LoupeLight 2 / MicroLight 2

- **Operating time typ. 9 hours.** In continuous operation at full power typ. 4 hours.
- **Charging time typ. 4 hours.**
- **Compact and lightweight.** With a weight of just 95 g and dimensions of 44 x 23 x 101 mm the power source can be easily stowed.
- **For further information on the mPack mini, please see pages 133 and 150.**

## HEINE® MicroLight 2

### Compact LED<sup>HQ</sup> Headlight – now even brighter

**EXCLUSIVELY AT HEINE**

- Compact and Lightweight
- Coaxial Illumination
- Typ. 55,000 Lux

- HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- **Compact and lightweight.** Ensures perfect comfort.
- **Aluminium Housing.** Exclusive aluminium housing protects the optics against dust and moisture to ensure an extraordinary long lifespan and optimal thermal management.
- **Coaxial illumination:** Compact coaxial design ensures a completely shadow-free image and allows for excellent illumination of difficult to see areas.
- **Homogeneity:** An absolutely bright light spot that is uniform from edge-to-edge for the perfect illumination in all examination situations.
- **Replaceable connecting cord** with high-quality splashproof threaded connector with a length of 1.5m. Connects the MicroLight 2 with the mPack mini.
- **Incl. coloured attachment clips for personalisation.** To fixate the cable on the S-FRAME and to identify your headlight.

#### Technical Specification

Illumination	Typ. 55 000 Lux
Colour Temperature	Typ. 4 000 Kelvin
LED Operating Life	Typ. 50 000 hours
Weight	80g together with S-FRAME, 190g together with Lightweight Headband
Angle of Declination	Stepless and individually adjustable for every examination
Operating Time	Typ. 9h with mPack mini (in continuous operation at full power typ. 4 hours)

- **Precision multiple lens optical system** consisting of four high-quality lenses. Completely homogeneous illumination of the whole field of view, and a clearly defined light spot.

Conventional System [01]

HEINE Precision 4-Lens System [02]

Comparison of homogeneity

#### Mounting Options:

##### · HEINE S-FRAME

- **Maximum comfort** with a modern, ergonomic design.
- **Malleable temples and nose pad.** Can be customized to fit any face perfectly.
- **Innovative materials** – Carbon-Kynetium reduces weight (80g together with MicroLight 2).
- **Tough polycarbonate protective lenses.**

##### · HEINE® Lightweight Headband

- **Lightweight** (190g together with MicroLight 2.) Ideal for spectacle wearers.
- **Fully-adjustable for width to fit any head.**
- **Hygienic and comfortable leather cushions.**

### HEINE® mPack mini

#### Compact and lightweight power source for LoupeLight 2 / MicroLight 2

**EXCLUSIVELY AT HEINE**

- Operating time typ. 9 hours
- Stepless light intensity control
- Compact and lightweight

**NEW!**

[01]

- **Freedom from cables** that tie the user to desk, wall or static power supplies.
- **Operating time typ. 9 hours.** In continuous operation at full power typ. 4 hours.
- **Charging time typ. 4 hours.**
- **Charge status indicator.** Display of remaining battery power with three LEDs. The flashing of the last LED indicates that immediate charging is required. During charging the LEDs light up one after the other.
- **Stepless light intensity control.** Optimum brightness setting between 100% and 3% reduces reflexes.
- **USB cord** with E4-USB Medical approved plug-in power supply.
- **The integrated galvanic separation module** protects the battery and the user against the consequences of defective power supplies, thus preventing the possibility of the full mains voltage flowing directly to the housing. We recommend the use of a medical approved plug-in power supply.
- **Simple cleaning.** Closed housing, no seams at the sides, few edges.
- **Compact and lightweight.** With a weight of just 95 g and dimensions of 44 x 23 x 101 mm the power source can be easily stowed.
- **NEW: Optimised mPack mini belt clip** for easy attachment of the power source to the belt or coat pocket. The mPack mini can also be charged in the belt clip [01].
- **Li-ion technology.** No "memory effect", without worrying about charge level or battery condition.
- **Integrated rechargeable battery.** Can be exchanged at authorised specialist dealers.

· For further information on the mPack mini, please see page 150.

## HEINE® ML 4 LED HeadLight

Ultra bright coaxial LED<sup>HQ</sup> illumination

LED NOW IN HEINE QUALITY.

∴ Comfortable and secure fit

∴ Adjustable spot size

∴ Flexible power source options

Comparison of homogeneity  
[01] Competitor product  
[02] HEINE ML 4 LED HeadLight

- ∴ HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management to a colour rendering index as high as possible.  
**That's what we call LED in HEINE Quality – or LED<sup>HQ</sup>.**
- ∴ **Adjustable illumination spot size:** 30 mm to 80 mm spot size range (at 420 mm working distance) to fit any examination situation.
- ∴ **Bright and homogenous illumination.** Absolutely bright light spot that is uniform from edge-to-edge for the perfect illumination in all examination situations.
- ∴ **Stepless light intensity control.** Optimal brightness setting prevents reflexes.
- ∴ **Flexibility.** Flexible Power Source Options: 100 % mobility with a choice of cable-free mPack UNPLUGGED head-worn battery or mPack belt-worn battery pack.
- ∴ **Coaxial illumination.** Coaxial design ensures a completely shadow-free image and allows for excellent illumination of difficult to see areas.
- ∴ **Comfortable and secure fit.** The Professional L headband has multiple adjustment points and soft padding for comfort and stability – even during long examinations.
- ∴ **Optional filters.** Polarisation Filter P2 improves contrast and yellow filter reduces blue light.

#### Technical Specification

Illumination	Typ. 65,000 Lux*
Colour Temperature	Typ. 4,500 Kelvin
LED Operating Life	Typ. 50,000 hours
Spot Adjustment	30 mm to 80 mm at 420 mm working distance
Angle of Declination	Stepless and individually adjustable for every examination
Rheostat	Headband-mounted
Operating Time	Typ. 8.5 hours with mPack and typ. 3.5 hours with mPack UNPLUGGED of continuous ON time at full power

\*Measured at a working distance of 180mm from the light emission to the object.

#### Power Options:

##### ∴ HEINE® mPack

- ∴ **Portable power pack.** Does not tie the user to desk, wall or static power supplies.
- ∴ **Li-ion technology. Triple capacity** compared with current NiCd systems.  
No memory effect, autonomy for typ. 8.5 hours of continuous ON time at full power.
- ∴ **Fast charge.** Charges to full capacity in typ. 2 hours.
- ∴ **Charge status indicator.** Always lets you know how much operating charge you have left.
- ∴ **Brightness control.** Optimal adjustment of light intensity.
- ∴ **Flexible charging options:** EN50 Desk and wall charger, or plug-in transformer.
- ∴ **Intelligent.** Can be used as mains power supply even while in “charge” mode.
- ∴ **100 – 240V compatible transformer** incl. 4 plugs for world wide compatibility.

For the optional EN50 table/wall unit please see page 149.

##### ∴ HEINE® mPack UNPLUGGED. Headband-mounted rechargeable battery.

- ∴ **Wireless.** 100 % mobility for absolute freedom of movement.
- ∴ **Rechargeable battery integrated on the headband.**
- ∴ **Lightweight with balanced weight distribution.** High level of comfort.
- ∴ **Charge status indicator** indicates remaining operating time.
- ∴ **Intelligent.** Can be used as mains power supply even in “charge” mode.
- ∴ **Fast charge.** Charges to full capacity in typ. 2 hours. Operating time typ. 3.5 hours of continuous ON time at full power.
- ∴ **Top safety standards.** Integrated charge and performance checks during operation. Lithium polymer technology. UL compliant.

## HEINE® MD 1000 Fiber Optic (F.O.) Headlight

- ∴ **Compact, high-tech optics** for homogeneous, coaxial, exceptionally-bright illumination.
- ∴ **Ultra-light, highly-flexible fiber optic cable** with gown clips, length 3m.
- ∴ **Height and angle of illumination adjustable by a single control.**
- ∴ **Lightweight, flexible Headband Professional L:** Adjustable for height and width with detachable soft leather forehead cushion.
- ∴ **Adjustable light spot** with sterilizable lever.
- ∴ **Can be combined with HEINE HR and HRP Binocular Loupes** for magnification from 2.5x – 6x.
- ∴ **Can be fitted with a CCD camera.**
- ∴ **Light source: HK 7000 F.O. Projector\*.**

### Technical Specification

Illumination	<b>Typ. 35,000 Lux</b> with HK7000 F.O. Projector at a working distance of 250 mm
Colour Temperature	<b>Typ. 3,300 Kelvin</b> with HK 7000 F.O. Projector
Light Source	HK 7000 F.O. Projector
Spot Adjustment	Adjustable spot size from <b>20mm to 70mm</b> at a distance of 200mm and <b>45mm to 180mm</b> at a distance of 500mm
Angle of Declination	Individually-adjustable
Brightness control	Stepless light intensity control on Light Source

### MD1000 F.O. Headlight

with Headband Professional L*	<b>J-003.31.231</b>
-------------------------------	---------------------

## HEINE® MD 1000 F.O. Headlight with HR/HRP Optics

The MD 1000 is optionally supplied with HR/HRP Binocular Loupes including i-View loupe mount and S-GUARD. The binocular loupe is fully-adjustable for every examiner and for every examination axis.

- ∴ **HEINE S-GUARD:** Rapid and simple symmetric adjustment of binocular loupes with splash protection by protective lenses.
- ∴ **HEINE i-View:** Provides any angle of view and flips up the optics independently of the illumination beam.

### MD1000 F.O. Headlight with HR/HRP Binocular Loupes

## HEINE BETA® 4 Handle Range – Next-generation energy management

- ∴ **One handle for all applications:** A well thought out range combines everybody's needs and all technologies. Choice of power sources from basic alkaline batteries up to latest Li-ion technology.
- ∴ **4 handle options:**
  - BETA drycell handle
  - BETA 4 USB rechargeable handle with USB cord and medical approved plug-in power supply
  - BETA 4 NT and BETA 4 SLIM NT rechargeable handle for NT4 Table Charger
- ∴ **Compatibility during your entire career.** The BETA4 Rechargeable Handles are compatible with all 3.5V XHL and LED HEINE instruments.
- ∴ **Complete freedom of choice:** One basic handle for any situation. Decide between dry-cell or rechargeable; enhanced mobility with USB charging or convenient desk charging in the HEINE NT 4 Table Charger.

### HEINE BETA® Handle Module

The handle module X-000.99.010, 145 mm x 30 mm dia., is the basis of every BETA handle. By adding the appropriate bottom inserts it is possible to assemble any of the handles shown on this page. A BETA battery handle can also be converted to a rechargeable handle in this way. All BETA handles feature short-circuit protection and a continuous ceramic brightness control.

**BETA handle module**

**X-000.99.010**

### HEINE BETA® Battery Handle

**2.5V**

BETA battery handle  
(batteries not included; appropriate batteries: IEC LR14)

**X-001.99.118**

BETA Bottom insert

**X-000.99.119**

BETA Belt Clip

**X-000.99.008**

### HEINE BETA® SLIM Battery Handle

Dimensions: 135 mm x 19mm dia. Weight: 180g.

A compact handle with automatic connector for those who prefer a slim handle. Batteries not included.

**BETA SLIM battery handle**

**2.5V**

for 2 alkali-manganese batteries, size AA

**X-001.99.105**

## HEINE BETA® 4 Rechargeable Handles

### Next-generation energy management

**EXCLUSIVELY AT HEINE**

- Exclusive Automatic Connector
- Li-ion technology
- Charge Status Indicator
- USB – flexible and convenient charging option

- **High-quality metal construction** for strength and durability.
- **Exclusive Automatic Connector with locking design.** No metal on metal friction which can wear out over time, for a secure fit for the lifetime of your instruments.
- **Deep Battery Discharge Protection:** Integrated safety system protects your investment by preventing batteries from completely draining; thus ensuring maximum battery life.
- **Familiar brightness control:** Rheostat for continuous brightness control with power level indicator.
- **Li-ion technology:** no “memory effect”. Charge your handle how you like without worrying about charge level or battery condition.
- **Extended ON time:** work typ. 6 weeks between recharging with LED instruments.
- **Quick charge.**
- Slightly knurled finish of the handle provides a **non-slip grip but is easy to clean and disinfect.**
- **Charge Status Indicator** in the bottom insert: the indicator shines orange if the battery needs to be recharged. In the BETA4 USB Handle the indicator blinks green during the charging process and shines permanently green as soon as it is fully charged.

#### BETA 4 NT rechargeable handle for NT4 table charger

- **Ready-to-use Function.** Handles switch ON & OFF automatically when placed into charger. Set your desired brightness level once and it stays there every time you use your instrument. Also prevents battery damage and premature bulb burn outs if the instruments are accidentally left on.

	3.5V Li-ion

BETA4 NT bottom insert	X-002.99.394
Li-ion rechargeable battery for BETA 4 rechargeable handle	X-007.99.383
BETA Belt Clip [01]	X-000.99.008

#### BETA4 USB Li-ion rechargeable handle

- **Maximum safety.** You can charge your HEINE BETA 4 USB handle with any USB plug or other USB power source, with absolute peace of mind. The BETA4 USB handle has an integrated, exclusive Galvanic Separation Module that protects the handle, and the user, even if a faulty or inferior plug is used; thus preventing the possibility of the full mains voltage flowing directly to the handle. We do however recommend the use of a medical approved plug-in power supply.

Rechargeable battery M3Z 4 NT Li-ion	<b>X-007.99.380</b>

## HEINE® NT 4 Table Charger

Dimensions: Width 142 mm, Height 61 mm, Depth 66 mm.

With the appropriate adaptor set all BETA4 NT and BETA4 SLIM NT rechargeable handles can be charged in the NT4 table charger. The same applies to all Standard F.O. 4 NT, F.O. 4 SLIM NT and F.O. 4 SHORT NT laryngoscope rechargeable handles.

- ∴ **Innovative, compact design.** Practical and space-saving.
- ∴ **Two independent charging wells.** Complete functionality for one or two handles at a time.
- ∴ **Automatic charging.** Independent of the state of charge of the rechargeable battery. Guarantees extended battery life.
- ∴ **Cannot be overcharged.** Charger switches off automatically when the battery is fully charged.
- ∴ **Charge status indicator.** Light pulses from the charging well to confirm the charging mode. Continuous light indicates that the charging process has been completed.

Adapter set (two pieces) for BETA SLIM and Small F.O. Laryngoscope Rechargeable Handles [01]	X-000.99.086

\*Due to the increased demands on the charging management function of these rechargeable batteries, a latest generation HEINE NT300 recharging station must be used to properly and fully recharge these rechargeable batteries. Latest generation HEINE NT300 recharging stations can be identified by the serial number on the underside of the recharging station. Recharging stations starting with the serial number **SN 101 1000 001** are compatible.

## HEINE Large Battery Handle

Dimensions: 165 mm x 37 mm dia. Weight: 212 g without batteries, 505 g with batteries.

A large handle for 2 alkali-manganese batteries IEC LR20/D cells.  
Designed for countries where larger batteries are still preferred.  
(Only suitable for certain instrument cases.) Batteries not included.

<b>Large battery handle</b>	<b>2.5V</b>
for 2 alkali-manganese batteries, size D	<b>X-001.99.120</b>

## HEINE mini 3000® Battery Handle

Innovative, compact battery handle in a high-quality, modern design.  
Suitable for all mini3000 instruments.

- ∴ **Oval, compact, stylish shape.** Lies ergonomically in the hand.
- ∴ **High-quality handle: Chrome-finish upper section/refined plastic.** Shockproof, sturdy, non-slip.
- ∴ **Attachment clip with integrated on/off switch.** Secure. Switches off automatically when returned to the pocket. 20.000 switch cycles guaranteed.
- ∴ **Screw-on end cap.** For easy battery change.
- ∴ **Threaded connector made of metal.** Prevents wear.
- ∴ **Replaceable batteries.** Size AA, or optional rechargeable battery with mini NT table charger.
- ∴ **Complete range of mini 3000 instruments.** Versatile range.
- ∴ **Registered Design.**
- ∴ **Rechargeable mini 3000 handle.** The mini 3000 battery handle can be retro-fitted with the mini rechargeable battery 2.5V NiMH and the bottom insert to update to the mini 3000 rechargeable handle. Fully-automatic charging with the mini NT table charger.

<b>mini3000 Battery Handle</b>	<b>2.5V</b>
with two dry batteries IEC LR6 (AA size)	<b>D-001.79.021</b>

All non-rechargeable mini handles are fitted with batteries (IEC LR 6 AA size). mini3000 handles can be supplied in black or blue. Please specify the colour you prefer when ordering. If not otherwise specified, we will supply black instruments.

## HEINE® mini NT Charger Set for mini3000®

### Compact charging technology

⚡ Fast charge capability

⚡ Automatic charging

⚡ Charge indicator

**mini NT Charger set 2.5V.** Consists of the mini NT table charger, 2 mini NT rechargeable batteries and 2 bottom inserts for the mini 3000 rechargeable handles. With this set, existing mini 3000 handles can be updated to the 2.5V rechargeable system. Optional adaptor set for mini 2000.

mini NT table charger: Width 112 mm, Height 50mm, Depth 52 mm, Weight 270g.

- ⚡ **Innovative, compact design.** Practical and space-saving.
- ⚡ **Two independent charging wells.** Complete functionality for one or two handles at a time.
- ⚡ **Fast charge feature.** Typ. 4 hours to recharge a mini3000 NiMH 2.5V rechargeable battery.
- ⚡ **Automatic charging.** Independent of the state of charge of the rechargeable battery. Guarantees extended battery life.
- ⚡ **Cannot be overcharged.** Charger switches off automatically when the battery is fully charged.
- ⚡ **Charge status indicator.** Light pulses from the charging well to confirm the charging mode. Continuous light indicates that the charging process has been completed.
- ⚡ **No memory effect.** Full power at any time without loss of capacity.

**Please note:** Suitable only for mini3000 2.5V NiMH rechargeable battery.

## Wall-/Table-Transformer HEINE® EN 50

### Modular Power Supply System/charger

The HEINE Modular Power Supply System offers unsurpassed flexibility and innovative features. The EN50 powers OMEGA500 and ML4 LED HeadLight. Furthermore, all other HEINE 6V products are compatible. The EN50 Charger, the mPack and HC50 L Headband Mounted Rheostat can be combined in every conceivable configuration.

- ∴ **Modular, compact design** functions as the base for Tabletop or Wall Mounted use and as charging base for the mPack mobile charging system.
- ∴ **Upgradeable.** mPack Charging base by simple removal of the control module.
- ∴ **Soft Start Technology.** A gradual introduction of current reduces bulb “shock” and extends bulb life.
- ∴ **100 – 240V Compatible Transformer** incl. 4 plugs for world wide compatibility.
- ∴ **Registered Design.**

- ∴ Modular Power Supply System

[04]

- **Freedom from cables** that tie the user to desk, wall or static power supplies.
- **Operating time LoupeLight 2/MicroLight 2:** Typ. 9 hours in everyday practical use. In continuous operation at full power typ. 4 hours.
- **Operating time SIGMA 250:** Typ. 11 hours in continuous operation at maximum power.
- **Charging time typ. 4 hours.**
- **Charge status indicator.** Display of remaining battery power with three LEDs. The flashing of the last LED indicates that immediate charging is required. During charging the LEDs light up one after the other.
- **Stepless light intensity control.** Optimum brightness setting between 100% and 3% reduces reflexes.
- **USB cord** with E4-USB Medical approved plug-in power supply.
- **The integrated galvanic separation module** protects the battery and the user against the consequences of defective power supplies, thus preventing the possibility of the full mains voltage flowing directly to the housing. We recommend the use of a medical approved plug-in power supply.
- **Simple cleaning.** Closed housing, no seams at the sides, few edges.
- **Compact and lightweight.** With a weight of just 95 g and dimensions of 44 x 23 x 101 mm the power source can be easily stowed.
- **NEW: Optimised mPack mini belt clip** for simple attachment of the power source to the belt or waistband. The mPack mini can also be charged in the belt clip [01].
- **Li-ion technology.** No „memory effect“, without worrying about charge level or battery condition.
- **Integrated rechargeable battery.** Can be exchanged at authorised specialist dealers.

## HEINE® EN200 Diagnostic Centre

### Modern, energy efficient wall system

**EXCLUSIVELY AT HEINE**

- Excellent energy efficiency
- Optimal cleaning
- Expandable via USB interface

- **Excellent energy efficiency.** Lower power consumption saves costs and is environmentally-friendly.
- **Simultaneous use of handles.** The handles can be operated optimally with LED and/or XHL instruments. Due to the galvanic separation, two doctors can use the devices for examination purposes independently of each other.
- **Multiple diagnostic possibilities.** Compatible with all HEINE instruments (LED or XHL) with AV connector.
- **Maximum safety for user and patient.** The integrated galvanic separation protects the handles from unwanted electrical interaction.
- **Optimal cleaning.** Flat, space-saving housing without any openings allows optimal hygienic reprocessing. The absence of a mechanical switch reduces the risk of cross-contamination.
- **Ready-to-use Function.** Due to cutting-edge technology in the HEINE EN200 the handle switches on and off automatically when taken off or returned to the unit. Set your brightness level once and it stays there every time you use your instrument. When not in use or when not returned to the unit, the illumination switches off after 15 minutes.
- **Connectivity Ready.** The device offers a USB port and can be expanded with HEINE modules such as the HEINE EN200 BP Automatic Digital Sphygmomanometer.
- **Soft Start Technology** protects bulbs in the critical switch-on phase (prevents current surge) and prolongs bulb life.
- **Continuous brightness control** between 100 % and 3 % for both XHL and LED illumination.
- **Integrated anti-theft system** by means of a locking screw prevents unauthorised instrument head removal.

[09]

[10]

Each HEINE bulb is specifically designed as an integral part of the HEINE instrument it powers, based upon the following parameters:

**Colour Temperature:**

Based on advanced HEINE XHL® Xenon Halogen Technology, each bulb is designed to provide the ideal colour temperature for the diagnosis the instrument is intended for. This ensures a proper balance between illumination brightness and true tissue colour for the most accurate diagnosis.

**Bulb Life:**

HEINE bulbs last up to 50 % longer compared with conventional bulbs, providing long life, optimum performance and cost-effectiveness.

**Safety:**

Advanced design and manufacturing procedures prevent dangerous bulb implosions.

**Optical Performance:**

The performance of each HEINE optical instrument depends on the bulb that powers it. Lenses built into the glass bulb envelope, precision filament placement and homogeneous light projection are major factors in ensuring the satisfactory performance of your HEINE instrument. We can only guarantee the performance and safety of your instrument if the appropriate HEINE bulb powers it. If a non-original copy of a HEINE bulb is used, the safety and performance of the HEINE instrument will be compromised and the manufacturer’s guarantee will no longer be valid.

All XHL Xenon Halogen bulbs are now available singly in individual blister packs.

Insist on genuine HEINE replacement bulbs and parts to ensure the correct performance of your HEINE precision instrument.

HEINE XHL® Xenon Halogen Bulbs

For optimum performance and cost-effectiveness

- ✦ Exceptional performance
- ✦ Optimum light output
- ✦ Extreme long life

## Fiber Optic (F.O.) Projector HEINE® HK 7000

The F.O. Projector HK 7000 incorporates a special long-life halogen bulb rated at 150 Watts. If more light is needed for a particular examination, a boost switch can be operated, giving up to 40 % more light. Suitable for all HEINE Systems with fiber optic illumination. Dimensions: Width 177 mm, Height 125 mm, Depth 217 mm. Weight 3,690g.

- ∴ **Powerful halogen bulb.** For maximum brightness.
- ∴ **Aspheric illumination optics.** Intense light with high colour temperature.
- ∴ **Continuous light intensity adjustment without colour temperature changes.** Allows brightness reduction with no red shift of light.
- ∴ **Boost switch.** Gives up to 40% more light.
- ∴ **Extended bulb life** of typ. 300 hours.
- ∴ **Folding handle.** Easy to transport.
- ∴ **For desk, wall, or wheeled stand.** Adaptable to individual needs.

∴ Continuous brightness control

∴ +40% Boost switch

## Standard Fiber Optic (F.O.) Cable for HEINE Fiber Optic Projectors

### For use with HEINE Fiber Optic Instruments

Fiber optic cable with handle for use with HEINE Fiber Optic Instruments and F.O. Projectors, for example the Instrument Head for disposable UniSpec tubes and the reusable F.O. Anoscope/Proctoscope Illumination Head, F.O. Anoscopes, Proctoscopes and Sigmoidoscopes. Length incl. handle: 180cm.

- ∴ **4 mm dia. fiber bundle of high quality.** Outstanding light transmission. Highly flexible cable.
- ∴ **Inner metal sheathing.** Resistant to kinking.
- ∴ **Smooth outer plastic sheathing.** Easy to clean.

Standard Fiber Optic cable	Y-003.99.518
----------------------------	--------------

## Wheeled Stand

Suitable for all HEINE Fiber Optic projectors and for projectors of other manufacturers. Dimensions: Height 900mm, weight 3,500g. Base-plate: Width 180mm, height 150mm, depth 240mm

- ∴ **5 legs with 60 cm wide base.** Ensures stability.
- ∴ **2 wheel brakes.** Holds the stand securely in position.

Wheeled stand – without base-plate	Y-096.50.001
Wheeled stand – with base-plate	Y-096.50.002

## HEINE – Simply the best guarantee in the market!

HEINE offers you a guarantee which reflects the quality and reliability of our products. All products confirm to the European Directive 93/42/EEC concerning medical devices. They carry the **CE** mark.

### Standard 5 Year Parts and Labor Guarantee

All HEINE products carry a 5 year parts and labor guarantee against defects in design, materials and workmanship.\* Excluded from this are wear and tear, single-use items and consumables as well as rechargeable batteries and exposed and accessible control and supply cables with corresponding plug connection.

For details please visit [www.heine.com](http://www.heine.com).

## Product-related guarantee conditions:

**HEINE iC1 Dermatoscope and HEINE iC2 Funduscope.** HEINE grants a 5 year guarantee only if the product has been purchased through an authorized dealer and is registered within 6 months from the date of purchase. To register please go here [www.heine.com/en\\_GB/register/](http://www.heine.com/en_GB/register/). The guarantee provides coverage against defects in design, materials and workmanship. Rechargeable battery and mobile phone case are not included in this guarantee.

**HEINE Fibre Optic Laryngoscope.** The HEINE HiLite Fibre Optic bundle in Classic+ and Modular+ Laryngoscopes with improved light transmission carry a 5 year performance guarantee that ensures that the output will not fall below 1,000 Lux, even after repeated autoclave cycles (based on 4,000 cycles at 134 °C/4 min.). This includes HEINE Laryngoscopes which are cleaned, disinfected and/or sterilized according to the instruction for reprocessing.

**HEINE GAMMA® G-Series.** HEINE GAMMA G7 and HEINE GAMMA XXL LF Sphygmomanometers carry an extended guarantee of 10 years for the faultlessness from material, processing and construction defects. Wear parts and metrological control are not included.

**HEINE EN 200 BP Automatic Digital Sphygmomanometer.** HEINE grants a 5 year guarantee on the measurement system. Wear parts and metrological control are not included.

\***HEINE Cube.** For the Cube HEINE grants a guarantee of 2 years.

 Due to local regulations, some products may not be available in your country.

# There's no FUTURE without ORIGIN.

As a global leader in the manufacture of primary diagnostic instruments with over 500 employees, HEINE Optotechnik has been a 100% family owned and managed company for more than 70 years. We continue to develop and manufacture HEINE instruments exclusively at our facilities in Germany, where we combine decades-long experience and craftsmanship with the most modern manufacturing technologies.

We're represented in over 120 countries around the world, with subsidiaries in Australia, the US and Switzerland as well as 3,000 representatives, importers and specialist dealers.

We look forward to hearing from you – and would like to know more about your opinions, desires and suggestions regarding our products.
